Dear Administrator Guzman:

The California Air Resources Board (CARB) is submitting to the U.S. Environmental Protection Agency the *2023 Revision to the California State Implementation Plan for Carbon Monoxide* prepared by CARB as a revision to the California State Implementation Plan. The *2023 Revision to the California State Implementation Plan for Carbon Monoxide* addresses the request to remove the contingency measures and monitoring requirements for three carbon monoxide maintenance areas: Chico Urbanized Area, Modesto Urbanized Area, and Stockton Urbanized Area.

The *2023 Revision to the California State Implementation Plan for Carbon Monoxide* demonstrates that ambient monitoring in the three maintenance areas is no longer necessary. The *2023 Revision to the California State Implementation Plan for Carbon Monoxide* complies with Clean Air Act section 110(I) by demonstrating that the removal of the contingency measures and the monitoring requirements will not interfere with maintenance or any other Clean Air Act requirements. This submittal package consists of the following documents:

1. CARB Staff Report, *2023 Revision to the California State Implementation Plan for Carbon Monoxide*
2. CARB Executive Order S-24-006 adopting the *2023 Revision to the California State Implementation Plan for Carbon Monoxide* as a revision to the California State Implementation Plan;
3. Proof of Public Notice; and
4. State Implementation Plan Completeness Checklist.

The *2023 Revision to the California State Implementation Plan for Carbon Monoxide* was made available for a 30-day public review from February 9, 2024, to March 11, 2024, and no comments were received. CARB also provided notice to allow the public the opportunity to request a public hearing on May 23, 2024, beginning at 9:00 a.m. at the California Environmental Protection Agency, Byron Sher Auditorium, at 1001 I Street, Sacramento, California 95814 within the 30-day notification period. There was no request for a public hearing received by March 11, 2024.

CARB is committed to working with U.S. Environmental Protection Agency staff to provide any needed additional clarifying information. If you have any comments or questions please contact Edie Chang, Deputy Executive Officer at (916) 445-4383, or have your staff contact Dr. Michael Benjamin, Chief, Air Quality Planning and Science Division at (916) 201-8968.

Sincerely,

Steven S. Cliff, Ph.D., Executive Officer
