California Air Resources Board (CARB) List of CCDET IV-Certified Opacity Testing Vendors for Commercial Harbor Craft (CHC)

The [CHC Regulation](#) requires biennial^[1] opacity testing. This list reflects information compiled by CARB staff to provide commercial harbor craft owners/operators a list of CCDET IV-certified CHC opacity testing vendors. It does not constitute an endorsement of the listed companies and is intended as a resource only. This list is regularly updated by CARB staff. CCDET IV-certified opacity vendors not listed may contact HarborCraft@arb.ca.gov to request being added.

*Note that CCDET IV CHC Opacity Testing Certification classes are still ongoing in 2024 at no cost to students and several classes are available through March 2024 at CCDET's Los Angeles Trade Technical College Campus. Please visit [CCDET's Class Scheduling Website](#) for more details.

Table 1. CCDET IV Certified Opacity Testing Vendors

Company Name	Contact Name	City	Regional Coverage Area	Contact Email	Contact Phone	Company Website
Mobile Opacity Testing	John Dotsy & Marlene Jones	Oxnard	SoCal & Can Travel	John.Dotsy@gmail.com	John: (805) 612- 5243 Marlene: (805) 824- 4245	N/A
Marine Engine Service, Inc.	Mike Doherty	Wilmington	SoCal	MESMd91@gmail.com	(310) 835- 8828	www.marineengineserviceinc.com

[1] - The version of this document previously published on January 24, 2024 has been corrected. "Biannual" has been corrected to "biennial" to correctly match the requirements set forth in in Commercial Harbor Craft regulation.

For compliance with the CHC Regulation, individuals with any level of valid CCDET certification may perform CHC opacity testing. All opacity testing for CHC regulatory compliance must be completed in accordance with subsection (k) of the [CHC Regulation](#), including the adaptation of SAE J1667 as outlined in subsection (k)(1)(B).

In addition to the CCDET IV-certified vendors above, CHC operators seeking vendors for opacity testing CHC engines may also refer to CARB’s land-based [Commercial Smoke Tester Courtesy List](#). However, please note that CARB CHC Program staff have not verified if any of the listed land-based commercial smoke testers are currently CCDET-certified for opacity testing or whether they are currently able and willing to test engines in CHC applications.

Any CCDET-certified opacity vendors on the [Commercial Smoke Tester Courtesy List](#) who want to be listed as distinctly available to test engines in CHC applications, please contact HarborCraft@arb.ca.gov and request to be listed in updated versions of this list.
