

Appendix D: List of Hydrocarbon Solvent Bins

The hydrocarbon solvent materials on this list are to be individually reported in the Formulations section in the Consumer Products Reporting Tool (CPRT) or the Product Ingredient Details section in the Formulator CPRT (CPRTF). This list is provided to help you fill in the fields “Manufacturer,” “Trade Name,” and “Bin #.” This list should NOT be considered a complete list of hydrocarbon solvent materials. Custom blends are NOT represented. Trade names and bin numbers on this list are based on information provided by manufacturers or information publicly available and have not been verified by ARB staff. If you do NOT see your hydrocarbon solvent listed OR if you have a hydrocarbon solvent custom blend, you MUST obtain the trade name and corresponding bin number from your supplier or manufacturer and report them in the CPRT or CPRTF.
