AIR RESOURCES BOARD**

EXECUTIVE ORDER RM-24-004

Spark-Ignition Marine Watercraft Evaporative Emissions System Components

**Alpha Systems, LLC
Fuel tank**

WHEREAS, pursuant to California Health and Safety Code, sections 39600, 39601, and 43013, the California Air Resources Board (ARB) has established a certification process for evaporative emissions system components designed to control gasoline emissions from spark-ignition marine watercraft (SIMW), as described in California Code of Regulations, title 13, section 2856;

WHEREAS, pursuant to California Health and Safety Code, section 43013, CARB has established criteria and test procedures for determining the compliance of evaporative emissions system components with the design requirements in Cal. Code Regs., title 13, section 2855;

WHEREAS, pursuant to Cal. Code Regs., title 13, section 2856, CARB Executive Officer may issue an executive order (EO) if he or she determines that SIMW evaporative emissions system components conform to the applicable performance requirements set forth in Cal. Code Regs., title 13, section 2855; and

WHEREAS, pursuant to California Health and Safety Code, sections 39515 and 39516, CARB Executive Officer issued EO G-19-095 delegating to the Chief of CARB Emissions Certification and Compliance Division (ECCD) the authority to certify SIMW evaporative system components.

NOW, THEREFORE, I, Robin Lang, Chief of ECCD, find that the Alpha Systems, LLC fuel tank representative model, ALA-7-P-Cube, conforms with the 0.7 grams/meter²/day permeation performance requirements set forth in Cal. Code Regs., title 13, section 2855, when tested at a constant temperature of 28°C pursuant to test procedure TP-1504 using an approved test fuel of CARB LEV III certification fuel.

IT IS ORDERED AND RESOLVED that the Alpha Systems, LLC fuel tank model listed in Table 1, is certified for use in SIMW introduced into commerce in California.

Table 1

Model and Specifications for Alpha Systems, LLC Fuel Tanks			
Fuel Tank Model Number	Minimum Wall Thickness, (in)	Minimum Volume/Internal Surface Area Ratio (in ³ / in ²)	Test Emission Rate (grams/meter ² /day)
ALA-7-P-Cube	0.040	1.92	< 0.70

IT IS FURTHER ORDERED that Alpha Systems, LLC shall provide a warranty to watercraft manufacturers purchasing any of the Alpha Systems, LLC fuel tank model listed in Table 1. The warranty must conform to the requirements of Cal. Code Regs., title 13, section 2861.

IT IS FURTHER ORDERED that the certified Alpha Systems, LLC fuel tank model listed in Table 1 shall be installed in accordance with the manufacturer's installation and use instructions for the Alpha Systems, LLC fuel tank model. A copy of this EO and fuel tank installation and use instructions shall be provided to original watercraft manufacturers purchasing Alpha Systems, LLC fuel tank model listed in Table 1 for installation on spark-ignition marine engines and watercraft introduced into commerce in California.

IT IS FURTHER ORDERED that the Alpha Systems, LLC fuel tank model listed in Table 1 and introduced into commerce in California shall be clearly identified by a permanent identification of "RM-24-004".

IT IS FURTHER ORDERED that any alteration to the Alpha Systems, LLC fuel tank model listed in Table 1 and certified hereby is prohibited. Any alteration or modification of the designs approved by this EO will require the manufacturer to apply for a new EO.

IT IS FURTHER ORDERED that the Alpha Systems, LLC fuel tank model listed in Table 1 shall be compatible with fuels in common use in California at the time of certification, and any modifications to comply with future California fuel requirements shall be approved in writing by the Executive Officer or Executive Officer's delegate.

IT IS FURTHER ORDERED that the component certification of the Alpha Systems, LLC fuel tank model listed in Table 1 can be referenced in certification applications for spark-ignition marine engines and watercraft that use spark-ignition marine engines unless the Executive Officer finds that the Alpha Systems, LLC fuel tank model listed in Table 1 no longer meet the performance requirements set forth in Cal. Code Regs., title 13, section 2855, when tested pursuant to Cal. Code Regs., title 13, section 2864.

Executed in California, this 2nd day of December 2024.

Robin Lang, Chief
Emissions Certification and Compliance Division
