

Welcome and thank you for attending the Public Workshop on the State's Comprehensive Climate Action Plan

FEBRUARY 26, 2025

Agenda

1. Welcome and introductions
2. Overview of the Climate Pollution Reduction Grants Program and California climate efforts to date
3. Discussions to hear your thoughts on climate impacts you're experiencing and climate action you'd like to see
4. Time for California Climate Action Survey

Climate impacts are all around us

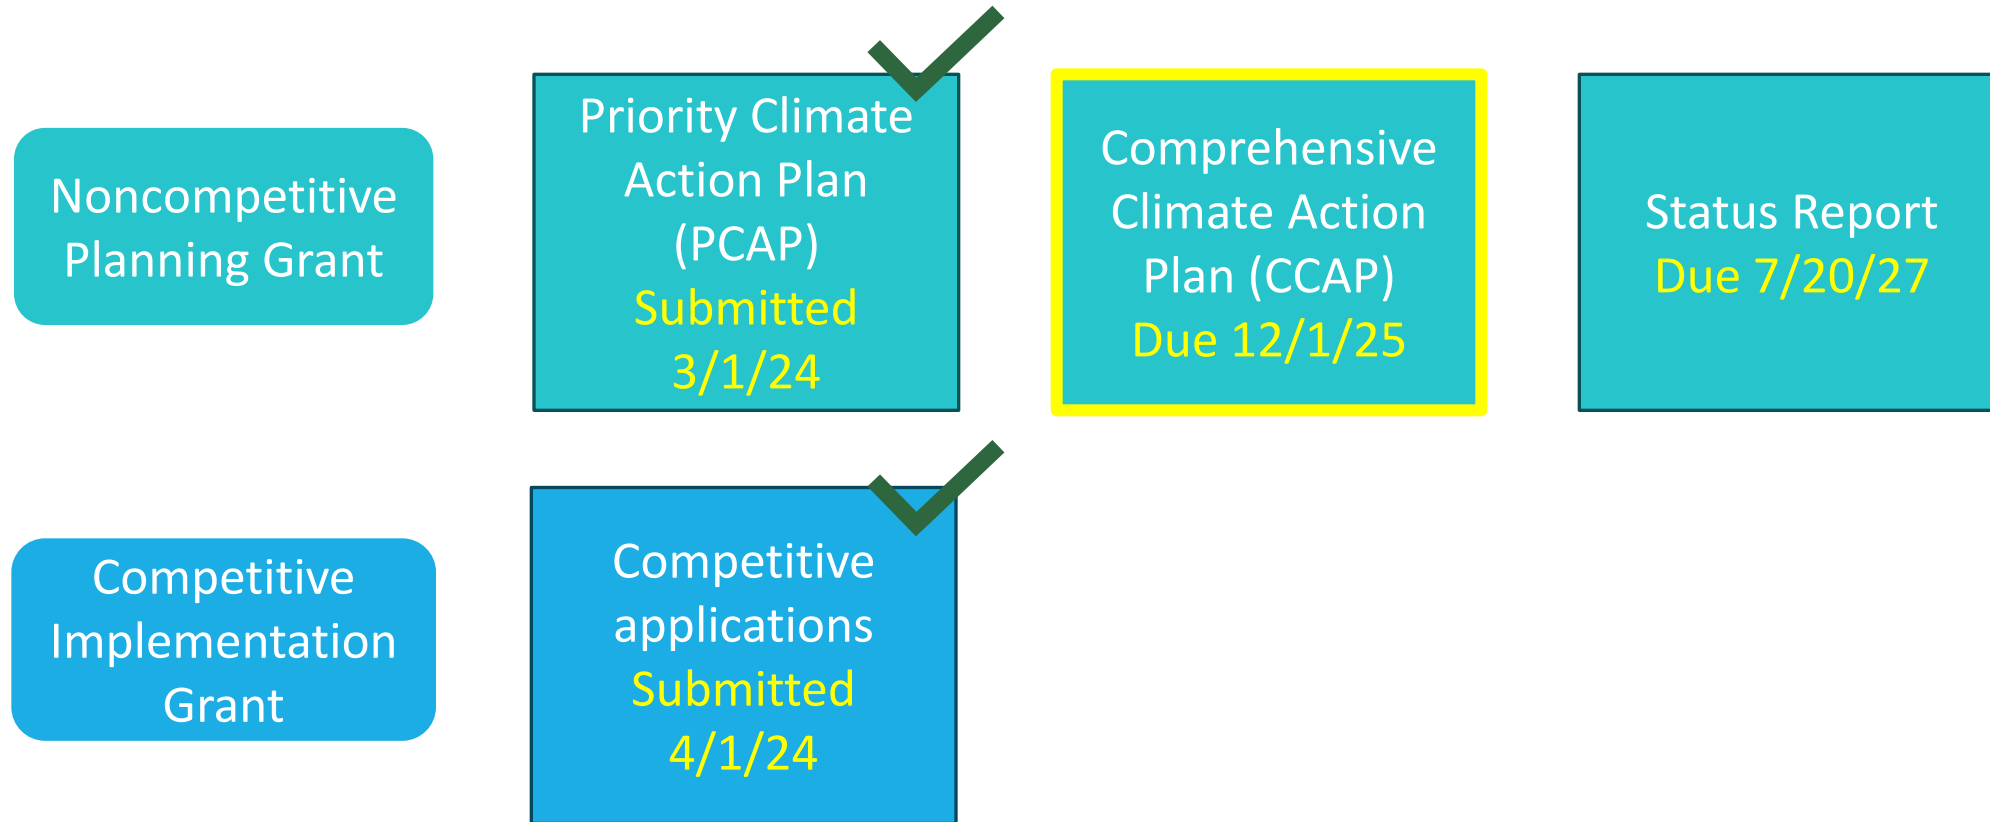

Overview of U.S. EPA's CPRG Program

The Climate Pollution Reduction Grants (CPRG) program provides nearly \$5 billion in grants to states, local governments, tribes, and territories to develop and implement ambitious plans for reducing greenhouse gas emissions and other harmful air pollution. Authorized under Section 60114 of the Inflation Reduction Act, this two-phase program provides \$250 million for noncompetitive planning grants, and approximately \$4.6 billion for competitive implementation grants.

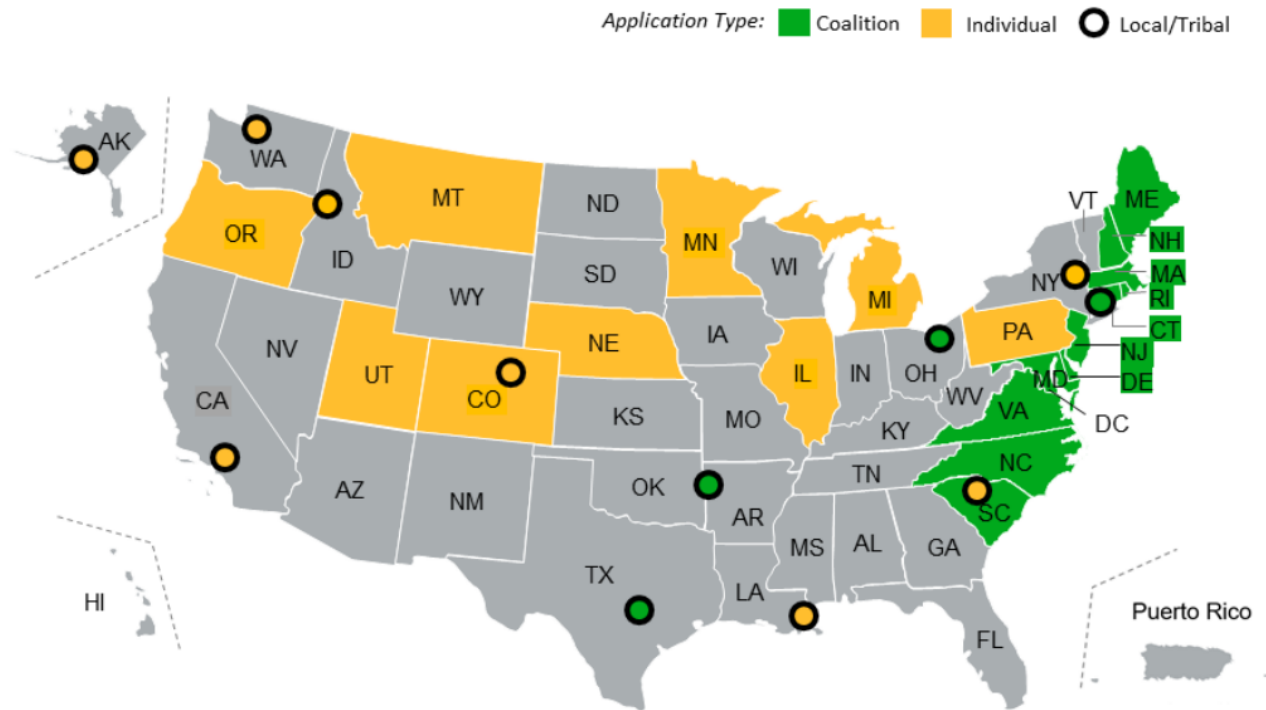

CPRG requires 3 plans over 4 years

PCAP is complete, awards have been made, CCAP is next

Many awards made during CPRG competitive phase, and many projects still seeking support

Snapshot of awarded projects

U.S. EPA's Climate Action Funding Resource Guide, including for CCAPs
[Investing in America: Climate Action Funding Resource Guide | US EPA](#)

[CPRG Implementation Grants: General Competition Selections | US EPA](#)

CCAP required elements (due Dec. 2025)

1. Coordination with State and local entities and Tribal Nations
2. Greenhouse gas (GHG) targets (near and long term)
3. GHG projections
4. GHG inventories
5. Climate measures
6. Quantified GHG reductions of measures
7. Benefits analysis, especially low-income and disadvantaged communities
8. Workforce analysis
9. Review of authority to implement measures
10. Coordination with other funding sources

California's State Agency CPRG Task Force

An integrated government approach

Collaborations with metro areas & Tribes

California State Parks, Esri, TomTom, Garmin, FAO, NOAA, USGS, EPA, USFWS

California State Parks, Esri, TomTom, Garmin, FAO, NOAA, USGS, Bureau of Land Management, EPA, NPS, USFWS, California State Parks, Esri, TomTom, Garmin, FAO, NOAA, USGS, EPA, USFWS

Rough timeline for CCAP development

California's Climate Policy Framework

GHG Targets & Goals

Legislation & Executive Orders: Total GHGs (AB 32/SB 32) or sector targets (SB 1383/SB 100), etc.

Scoping Plan

Actionable plan across all sectors

Action

Regulations & Incentives: Advanced Clean Cars, climate change investments, etc.

Projects

Examples: Zero-emission trucks, energy infrastructure and renewables, compost facilities, digesters, etc.

2022 Scoping Plan Update

CA's latest plan to achieve statewide climate targets

ACHIEVING
CARBON
NEUTRALITY
BY **2045**

GHGs included in statute: Carbon dioxide (CO₂), Methane (CH₄), Nitrous oxide (N₂O), Hydrofluorocarbons (HFCs), Perfluorocarbons (PFCs), Sulfur hexafluoride (SF₆), Nitrogen trifluoride (NF₃).

2022 Scoping Plan Summary

Carbon neutrality by 2045, deploy a broad portfolio of existing and emerging fossil fuel alternatives and clean technologies, and align with statutes and Executive Orders

Land management activities that prioritize restoration and enhancement of ecosystem functions to improve resilience to climate change impacts, including more stable carbon stocks

2022 Scoping Plan's Ambitious Actions Deliver Huge Benefits

Unprecedented Deployment of Clean Technology and Nature-Based Climate Solutions

37x total on-road ZEVs

6x electric appliances in residences

1700x hydrogen supply

4x installed wind/solar generation capacity

> 2.5 Million acres of NWL climate action per year

Significant GHG Reductions

94% decrease in liquid petroleum fuel demand

91% decrease in fossil gas used in buildings

66% decrease in methane emissions from agriculture

10% reduction in wildfire emissions

In 2045 relative to 2022

California has lowered emissions while growing the economy, though work remains

Transportation Policies and Programs

Industrial

Electricity

Commercial & Residential

Agriculture

High Global Warming Potential

Recycling & Waste

Natural & Working Lands

California Climate Investments for Local Projects

- Funds from California cap-and-trade program
- \$11.6 billion in investments
- \$8.5 (75%) billion benefitting priority populations: disadvantaged communities and low-income households

California Climate Investments near you

Largest fleet of electric school buses in nation

- Twin Rivers (Sacramento)
- 78 electric school buses, started with 10 in 2020
- Replaced aging diesel buses
- Includes funding from Community Air Protection program
- Includes participation by Sac Metro AQMD

California Climate Investments near you

Training the next generation of Energy Efficiency Professionals in Sacramento

- Members of California Conservation Corps, Training and Workforce Development
- Replace lights/fixtures in Sac City USD
- Leads to training, work in energy, electrical work

California Climate Investments near you

Our Community Car Share Program

- In multiple Sacramento communities, with charging
- Provides EVs for errands, doctor visits, etc.
- Partnership with ZipCar
- Free to join. \$4 per hour
- 8 hr. max per day/ 24 hours per week

Questions for discussion

1. Which Climate Impacts are you already dealing with?
2. What (if any) climate projects are happening in your community that are working well?
3. In which sectors (e.g., transportation, industrial, etc.) would you like to see more or different climate action?
4. Are there any projects you'd like to see next?
5. What barriers or opportunities do you see in moving those forward?
