

SETTLEMENT AGREEMENT

This Settlement Agreement is entered into between the California Air Resources Board (CARB), with its principal location at 1001 I Street, Sacramento, California 95814; and the City of Alameda, including Alameda Municipal Power, a department of the City (collectively, AMP), with its principal location at 2000 Grand Street, Alameda, California 94501 (collectively, the "Parties," or individually, "Party").

LEGAL BACKGROUND

- (1) Purpose. The Global Warming Solutions Act of 2006 mandates CARB to adopt regulations to reduce greenhouse gas emissions and to enforce those regulations. (Health & Saf. Code §§ 38560, 38562, and 38580).
- (2) Regulation. CARB adopted the "*Regulation for Reducing Greenhouse Gas Emissions from Gas-Insulated Equipment*" (SF₆ GIE Regulation) to achieve greenhouse gas (GHG) emission reductions from the operation of electrical equipment that uses a GHG as an insulating medium. (Cal. Code Regs., tit. 17, §§ 95350-95359.1.)
- (3) Regulatory Provisions. Any owner of gas-insulated equipment (GIE) must comply with the annual emissions rate and inventory measurement procedures, maintain records, and submit an annual report containing specific information to CARB by June 1 of each year. (Cal. Code Regs., tit. 17, § 95350 et seq.)
- (4) Penalty Provisions. Failure to comply with the regulatory requirements is a violation of state law that may result in penalties up to five thousand eight hundred fifty-five dollars (\$5,855.00 USD) for strict liability violations, respectively, for each day in which the violation occurs. (Cal. Code Regs., tit. 17, § 95350 et seq.; Health & Saf. Code §§ 38580, 42400 et seq., 42402 et seq., 42410, and 42411.)

CASE BACKGROUND

- (5) Corporate Entity. At all relevant times, AMP was organized under the laws of California as a municipal utility, owned by the City of Alameda, and conducted business in the State of California.
- (6) Allegations. CARB alleges that AMP violated the SF₆ GIE Regulation by being an owner of GIE that reported an exceedance of the maximum annual emissions limit (Cal. Code Regs., tit. 17, § 95353), and failed to maintain records in accordance with the reporting requirements (Cal. Code Regs., tit. 17, § 95355), as outlined in Notice of Violations SF6-2023-005 and SF6-2024-004. (Cal. Code Regs., tit. 17, § 95350 et seq.) CARB alleges that if paragraphs 1 through 6 were proven, civil penalties could be imposed against AMP for each violation for each day and/or MTCO₂e.

- (7) Acknowledgment. AMP admits to the facts in paragraphs 1 through 6, but denies any liability resulting from said allegations.
- (8) Consideration. In consideration of the foregoing, and of the promises and facts set forth herein, the Parties desire to settle and resolve all claims, disputes, and obligations relating to the above-listed alleged violations and voluntarily agree to resolve this matter by means of this Settlement Agreement. In order to resolve the violations described herein, AMP has taken, or agrees to take, the actions enumerated below within the Terms and Conditions. Further, CARB accepts this Settlement Agreement in termination and full settlement of this matter.

TERMS AND CONDITIONS

In consideration of CARB not filing a legal action against AMP for the alleged violations referred to above in the Legal Background and Case Background, and AMP's agreement to complete all terms and conditions set forth below, CARB and AMP agree as follows:

- (10) Notification Date. The date upon which CARB notifies AMP according to Paragraph 13 (Notices), that the Settlement Agreement is fully executed or when CARB sends the fully executed Settlement Agreement to AMP.
- (11) Civil Penalty Payment Method. AMP shall pay the civil penalty by check, credit card, wire transfer, or portal, payable to the "California Air Resources Board," using instructions provided separately by CARB in a Payment Transmittal Form. AMP is responsible for all payment processing fees. Payments shall be accompanied by the Payment Transmittal Form to ensure proper application. CARB shall deposit the civil penalty amount into the Air Pollution Control Fund for the purpose of carrying out CARB's duties and functions to ensure the integrity of its air pollution control programs. Should payment instructions change, CARB will provide notice to AMP in accordance with Paragraph 13 (Notices).
- (12) Documents. AMP shall promptly email or mail the signed and dated Settlement Agreement to the address or email in Paragraph 13 (Notices).

In consideration of full payment of the civil penalty and SEP payment(s), and all other undertakings above, CARB hereby releases AMP and its principals, officers, receivers, trustees, successors and assignees, subsidiary and parent corporations, from any claims CARB may have based on the circumstances described in Paragraph 6 (Allegations) above.
- (28) Authority. The undersigned represents that he or she has full authority to enter into this Settlement Agreement.

PENALTY BASIS

- (29) Per Unit Penalty. The per unit penalty in this case is a maximum of five thousand eight hundred fifty-five dollars (\$5,855.00 USD) per day under Health and Safety Code section 38350 for violations of the SF₆ GIE Regulation (Cal. Code Regs., tit. 17, § 95350 et seq.) The penalty of \$145,000.00 for over 36 days of noncompliance and 60 MTCO_{2e}, is approximately \$1,495.00 per violation.
- (30) Emissions. The provisions cited in Paragraph 6 (Allegations) above do prohibit emissions above a specified level. Without more information, it is not practicable to quantify the excess emissions.
- (31) Aggravating and Mitigating Factors. The penalties in this matter were determined in consideration of all relevant circumstances, including statutory factors as described in CARB's Enforcement Policy. CARB considered whether the violator came into compliance quickly and cooperated with the investigation; the extent of harm to public health, safety and welfare; nature and persistence of the violation, including the magnitude of the excess emissions; compliance history; preventative efforts taken; innovative nature and the magnitude of the effort required to comply, and the accuracy, reproducibility, and repeatability of the available test methods; efforts to attain, or provide for, compliance prior to violation; action taken to mitigate the violation; financial burden to the violator; and voluntary disclosure. The penalties are set at levels sufficient to deter violations, to remove any economic benefit or unfair advantage from noncompliance, to obtain swift compliance, and the potential costs, risks, and uncertainty associated with litigation. Penalties in future cases might be smaller or larger depending on the unique circumstances of the case.

(32) Confidential Business Information. CARB may have based this penalty in part on confidential business information provided by AMP or confidential settlement communications.

(33) Effect of Settlement/Reservation of Rights. The following shall apply:

- (a) This Settlement Agreement resolves the civil claims of CARB for the violations alleged in this Settlement Agreement.
- (b) CARB reserves, and this Settlement Agreement is without prejudice to, all claims, rights, and remedies against AMP with respect to all matters not expressly resolved in this Settlement Agreement. Notwithstanding any other provision of the Settlement Agreement, CARB reserves all claims, rights, and remedies, whether in law or equity, against AMP with respect to:
 - (i) Noncompliance with or enforcement of any provision of this Settlement Agreement.
 - (ii) Facts that were not disclosed by AMP to CARB.
 - (iii) Violation of the California Health and Safety Code and its implementing regulations, or other State laws, regulations, or permit condition(s) not expressly resolved in this Settlement Agreement.
 - (iv) Any imminent and substantial endangerment to the public health, welfare, or the environment in California, whether related to the violations addressed in this Settlement Agreement or otherwise.
 - (v) Any criminal liability.
 - (vi) Any claim(s) of any officer or agency of the United States or California, other than CARB.
- (c) In any subsequent administrative or judicial proceeding initiated by CARB for injunctive relief, civil penalties, or other appropriate relief relating to enforcement of the Settlement Agreement, AMP shall not assert, and may not maintain, any defense or claim based upon the principles of waiver, res judicata, collateral estoppel, issue preclusion, claim preclusion, claim-splitting, or other defenses based upon any contention that the claims raised by CARB in the subsequent proceeding were or should have been brought in the instant case.
- (d) This Settlement Agreement does not limit or affect the rights of AMP or of CARB against any third parties not covered by this Settlement Agreement, nor does it limit the rights of third parties not covered by this Settlement

Agreement against AMP, except as otherwise provided by law. This Settlement Agreement shall not be construed to create rights in, or grant any cause of action to, any third party not covered by this Settlement Agreement.

- (e) (e) This Settlement Agreement is not a permit, or a modification of any permit, under any federal, State, or local laws or regulations. AMP is responsible for achieving and maintaining compliance with all applicable federal, State, and local laws, regulations, and permits; AMP's compliance with this Settlement Agreement shall not be a defense to any action commenced pursuant to any such laws, regulations, or permits. CARB does not, by its execution of this Settlement Agreement, warrant or aver in any manner that AMP's compliance with any aspect of this Settlement Agreement will result in compliance with any provisions of federal, State, or local laws, regulations, or permits.
