Meeting goals: This workshop will inform the development of a report on hydrogen evaluating production, transmission, distribution, and end uses to accelerate progress toward the State's climate and energy goals, as required by SB 1075. To support this work, CARB contracted with Energy and Environmental Economics, Inc. (E3), which will provide an overview of their technical analyses and preliminary findings at this workshop.

Schedule

9:00 am Welcome and Workshop Introduction - CARB (10 mins)

9:10 am Presentation by Energy and Environmental Economics, Inc (E3) (75 mins)

There will be a 10-minute break during the presentation

10:25 am Public Comment (80 mins)

11:45 am Closing Remarks (5 mins)
