Alternative Diesel Fuels Regulation

Reporting Summary – 2024

The Alternative Diesel Fuels (ADF) regulation, which became effective January 1, 2016, requires regulated parties to report produced, imported, and blended amounts of all biodiesel blendstock and the biodiesel blends produced. The table below is a summary of ADF reporting in 2024 and shows the volumes of B100/B99 blendstock imported and produced, as well as the percentages of B100/B99 blendstock blended to produce final blends of B20 and below.

Alternative Diesel Fuels Reporting Summary 2024

	Total B100/B99 Volume Imported/Produced	Percentage of B100/B99 blended to produce B5	Percentage of B100/B99 blended to produce B10	Percentage of B100/B99 blended to produce B15	Percentage of B100/B99 blended to produce B20
2024 Q1	62,146,800	21.1%	1.2%	2.9%	74.8%
2024 Q2	45,965,239	20.2%	0.4%	1.3%	78.1%
2024 Q3	41,525,919	18.7%	0.6%	1.9%	78.8%
2024 Q4	56,285,206	19.1%	0.4%	1.5%	79.0%
Total	205,923,164	19.7%	0.6%	1.9%	77.7%
