

SETTLEMENT AGREEMENT

This Settlement Agreement is entered into between the California Air Resources Board (CARB), with its principal location at 1001 I Street, Sacramento, California 95814; and Pacific Maritime Group, Inc. (PMG), with its principal location at 1444 Cesar E. Chavez Pkwy, San Diego, California 92113 (collectively, the "Parties," or individually, "Party").

LEGAL BACKGROUND

- (1) Purpose. The California Health and Safety Code mandates the reduction of the emission of toxic air contaminants (TAC). CARB has determined that particulate matter (PM) from diesel-fueled engines is a TAC. (Health & Saf. Code §§ 39650-39675.)
- (2) Regulation. CARB adopted the *Airborne Toxic Control Measure for Commercial Harborcraft* (CHC Regulation) to reduce diesel PM and criteria pollutant emissions from diesel propulsion and auxiliary engines on commercial harbor craft that operate in Regulated California Waters (RCW). (Cal. Code Regs., tit. 17, § 93118.5.)
- (3) Regulatory Provisions. Any person who sells, supplies, offers for sale, purchases, owns, operates, leases, charters, imports, rents, or otherwise acquires, any new or in-use diesel fueled commercial harbor craft that is operated in any RCW must meet the fuel use and emission requirements outlined in the CHC Regulation, install a non-resettable hour meter, and report specific information to CARB. (Cal. Code Regs., tit. 17, §§ 93118.5 (b), (e), (h).)
- (4) Penalty Provisions. Failure to comply with the regulatory requirements is a violation of state law that may result in penalties up to twelve thousand five hundred fifty dollars (\$12,550.00 USD) for strict liability violations; respectively, per engine or piece of commercial harbor craft (CHC) equipment for each day in which the violation occurs. (Cal. Code Regs., tit. 17, § 93118.5; Health & Saf. Code §§ 39674, 39675, 42400 et seq., 42402 et seq., and 42410.)

CASE BACKGROUND

- (5) Corporate Entity. At all relevant times, PMG was organized under the laws California as a corporation and conducted business in the State of California.
- (6) Allegations. CARB alleges that PMG violated the CHC Regulation by purchasing, owning, operating, or otherwise acquiring new and/or in-use diesel fueled commercial harbor craft tugboat-push-tow and crane barge vessels that operated in RCW and did not conform to the requirements of the CHC Regulation as outlined in Notice of Violation CHC05082025_PMG by failing to implement the emission control strategy by the compliance deadline, and report required

information to the Executive Officer. CARB alleges that if paragraphs 1 through 6 were proven, civil penalties could be imposed against PMG for each and every piece of equipment involved in the violation(s) and each day.

- (7) Acknowledgment. PMG admits to the facts in paragraphs 1 through 6, but denies any liability resulting from said allegations.
- (8) Consideration. In consideration of the foregoing, and of the promises and facts set forth herein, the Parties desire to settle and resolve all claims, disputes, and obligations relating to the above-listed alleged violations and voluntarily agree to resolve this matter by means of this Settlement Agreement. In order to resolve the violations described herein, PMG has taken, or agrees to take, the actions enumerated below within the Terms and Conditions. Further, CARB accepts this Settlement Agreement in termination and full settlement of this matter.

TERMS AND CONDITIONS

section 523(a)(7), which provides an exception from discharge for any debt to the extent such debt is for a fine, penalty, or forfeiture payable to and for the benefit of a governmental unit.

- (24) Rules of Construction. Any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be applied in interpreting this Settlement Agreement.
- (25) Non-Waiver. The failure to enforce any provision of this Settlement Agreement shall not be construed as a waiver of any such provision, nor prevent such Party thereafter from enforcing such provision or any other provision of this Settlement Agreement. In consideration of full payment of the civil penalty, and all other undertakings above, CARB hereby releases PMG and its principals, officers, receivers, trustees, successors and assignees, subsidiary and parent corporations, from any claims CARB may have based on the circumstances described in Paragraph 6 (Allegations) above.
- (30) Authority. The undersigned represents that he or she has full authority to enter into this Settlement Agreement.

PENALTY BASIS

- (31) Per Unit Penalty. The per unit or per vehicle penalty in this case is a maximum of twelve thousand five hundred fifty dollars (\$12,550.00 USD) per CHC diesel engine and/or vessel per day, under Health and Safety Code section 39674, 42400, and 42402 for violations of the CHC Regulation. (Cal. Code Regs., tit. 17, § 93118.5.) The penalty of \$70,000 over an unspecified number of days of violation is for one count of reporting violation for each of ten noncompliant engines. The per unit penalty in this case is approximately \$7,000 per noncompliant engine.
- (32) Emissions. The provisions cited in Paragraph 6 (Allegations) above do prohibit emissions above a specified level. Without information on engine usage and emission rates, it is not practicable to quantify the excess emissions. However, since CARB has alleged that the vessel(s) did not meet the regulatory requirements, all of the emissions from it were excess and illegal.
- (33) Aggravating and Mitigating Factors. The penalties in this matter were determined in consideration of all relevant circumstances, including statutory factors as described in CARB's Enforcement Policy. CARB considered whether the violator came into compliance quickly and cooperated with the investigation; the extent of harm to public health, safety and welfare; nature and persistence of the violation, including the magnitude of the excess emissions; compliance history; preventative efforts taken; innovative nature and the magnitude of the effort required to comply, and the accuracy, reproducibility, and repeatability of the available test methods; efforts to attain, or provide for, compliance prior to violation; action taken to mitigate the violation; financial burden to the violator; and voluntary disclosure. The penalties are set at levels sufficient to deter violations, to remove any economic benefit or unfair advantage from noncompliance, to obtain swift compliance, and the potential costs, risks, and uncertainty associated with litigation. Penalties in future cases might be smaller or larger depending on the unique circumstances of the case.
- (34) Confidential Business Information. CARB may have based this penalty in part on confidential business information provided by PMG or confidential settlement communications.
- (35) Effect of Settlement/Reservation of Rights. The following shall apply:
- (a) This Settlement Agreement resolves the civil claims of CARB for the violations alleged in this Settlement Agreement.
 - (b) CARB reserves, and this Settlement Agreement is without prejudice to, all claims, rights, and remedies against PMG with respect to all matters not

expressly resolved in this Settlement Agreement. Notwithstanding any other provision of the Settlement Agreement, CARB reserves all claims, rights, and remedies, whether in law or equity, against PMG with respect to:

- (i) Noncompliance with or enforcement of any provision of this Settlement Agreement.
 - (ii) Facts that were not disclosed by PMG to CARB.
 - (iii) Violation of the California Health and Safety Code and its implementing regulations, or other State laws, regulations, or permit condition(s) not expressly resolved in this Settlement Agreement.
 - (iv) Any imminent and substantial endangerment to the public health, welfare, or the environment in California, whether related to the violations addressed in this Settlement Agreement or otherwise.
 - (v) Any criminal liability.
 - (vi) Any claim(s) of any officer or agency of the United States or California, other than CARB.
- (c) In any subsequent administrative or judicial proceeding initiated by CARB for injunctive relief, civil penalties, or other appropriate relief relating to enforcement of the Settlement Agreement, PMG shall not assert, and may not maintain, any defense or claim based upon the principles of waiver, res judicata, collateral estoppel, issue preclusion, claim preclusion, claim-splitting, or other defenses based upon any contention that the claims raised by CARB in the subsequent proceeding were or should have been brought in the instant case.
- (d) This Settlement Agreement does not limit or affect the rights of PMG or of CARB against any third parties not covered by this Settlement Agreement, nor does it limit the rights of third parties not covered by this Settlement Agreement against PMG, except as otherwise provided by law. This Settlement Agreement shall not be construed to create rights in, or grant any cause of action to, any third party not covered by this Settlement Agreement.
- (e) This Settlement Agreement is not a permit, or a modification of any permit, under any federal, State, or local laws or regulations. PMG is responsible for achieving and maintaining compliance with all applicable federal, State, and local laws, regulations, and permits; PMG's compliance with this Settlement Agreement shall not be a defense to any action commenced pursuant to any such laws, regulations, or permits. CARB does not, by its execution of this

Settlement Agreement, warrant or aver in any manner that PMG's compliance with any aspect of this Settlement Agreement will result in compliance with any provisions of federal, State, or local laws, regulations, or permits.
