As of May 10, 2022, CARB certified a total of 113,327 metric tons (MT) of Mitigation Fund Certified Reductions to count towards SoCalGas’s Mitigation Obligation of mitigating at least 109,000 MT of methane. The approved reduction represents 104% of the total Certified Reductions required to satisfy SoCalGas’ Mitigation Obligation. On June 24, 2022, the California Attorney General Office, on behalf of CARB, filed the Mitigation Certification with the Los Angeles Superior Court providing notice that SoCalGas has satisfied its Mitigation Obligation under the Consent Decree dated February 25, 2019. The table below reflects the estimated emissions reductions submitted by SoCalGas and confirmed by CARB staff for all twelve dairies throughout the mitigating funds’ project life. No additional updates are expected to the estimated emissions reductions.
