## **Public Meeting to Consider the Proposed Community Air Protection Funds Supplement to the Carl Moyer Memorial Air Quality Standards Attainment Program 2017 Guidelines**

The California Air Resources Board (CARB or Board) will conduct a public meeting at the time and place noted below to consider a proposed Community Air Protection Funds Supplement to the Carl Moyer Memorial Air Quality Standards Attainment Program (Moyer Program or Program) 2017 Guidelines.

DATE: April 27, 2018  
TIME: 9:00 a.m.  
LOCATION: Sacramento County Administration Building  
700 H Street  
Sacramento, California 95814

This item will be considered at a meeting of the Board, which will commence at 9:00 a.m., April 27, 2018. Please consult the agenda for the meeting, which will be available at least ten days before April 27, 2018, to determine when this item will be considered.

---

## **Background**

Staff will present the proposed Community Air Protection Funds Supplement to enable the Moyer Program to expedite emission reductions in the California communities most burdened by air pollution. In 2017 the Governor signed legislation appropriating \$250 million in Greenhouse Gas Reduction Funds to achieve early action emission reductions in those communities. Incentives to clean

up engines and provide advanced technology infrastructure in disadvantaged and low income areas are key initial steps in improving their air quality, toward the full implementation of Assembly Bill 617. Funds this year will reduce toxic and smog-forming emissions from mobile sources, through the Moyer Program or the Proposition 1B Goods Movement Emission Reduction Program. Advancing clean technologies also reduces greenhouse gases.

For many types of Moyer Program projects, the Guidelines Supplement would:

- Reduce the cost of participation in the Program by grant applicants;
- Increase funding for infrastructure projects, particularly those at a port, railyard or other freight facility.
- Enable more school bus projects to be funded;
- Enable funding for more types of transport refrigeration units.

This year's Community Air Protection funds are available in the following areas:

- \$107.5 million in the South Coast Air Quality Management District
- \$80 million in the San Joaquin Valley Air Pollution Control District
- \$50 million in the Bay Area Air Quality Management District
- \$12.5 million in other California air districts

Community Air Protection funds are part of California Climate Investments, a statewide initiative that puts Cap-and-Trade dollars to work to benefit all California communities.

Further inquiries regarding this matter should be directed to Kyle Goff, Air Pollution Specialist, Incentives Oversight Section, at (916) 324-1988 or Doug Thompson, Manager, Incentives Oversight Section, at (916) 322-6922.

### **Notice of Public Meeting**

---

## **Written Comment Period & Comment Submittal**

CARB staff will present a report on the Proposed Guidelines Supplement at the meeting. A written staff report and the proposed Guidelines Supplement will be available for a 45-day public comment period beginning March 12, 2018. Copies of the report may be obtained from CARB's Public Information Office, 1001 I Street, First Floor, Environmental Services Center, Sacramento, California, 95814, Monday, March 12, 2018. The report may also be obtained from [CARB's website](#). Interested members of the public may present comments orally or in writing at the meeting and may provide comments by postal mail or by electronic submittal before the meeting. To be considered by the Board, written comments not physically submitted at the meeting must be received no later than **5:00 p.m., Thursday, April 26, 2018**, and addressed to the following:

Clerk of the Board, California Air Resources Board  
1001 I Street, Sacramento, California 95814

**Electronic Submittal**

Please note that under the California Public Records Act (Government Code section 6250 et seq.), your written and oral comments, attachments, and associated contact information (e.g., your address, phone, email, etc.) become part of the public record and can be released to the public upon request.

**CLEARING CALIFORNIA SKIES FOR 50 YEARS**

CARB is the lead agency for California's fight against climate change, and oversees all air pollution control efforts in the state to attain and maintain health-based air quality standards. Learn more at [www.arb.ca.gov](http://www.arb.ca.gov).
