California Air Resources Board (CARB) List of CCDET IV-Certified Opacity Testing Vendors for Commercial Harbor Craft (CHC)

The [CHC Regulation](#) requires biennial (every two years) opacity testing and submission to CARB by March 31st on even years. This list reflects information compiled by CARB to provide commercial harbor craft owners/operators a list of CCDET IV-certified CHC opacity testing vendors. It does not constitute endorsement of the listed companies and is intended as a resource only. CCDET IV-certified opacity vendors not listed may contact HarborCraft@arb.ca.gov to request being added.

* CCDET IV CHC Opacity Testing Certification classes are available through Los Angeles Trade Technical College Campus. Please visit [CCDET's Class Scheduling Website](#) for more details.

Table 1. CCDET IV Certified Opacity Testing Vendors

Company Name	Contact Name	City	Regional Coverage Area	Contact Email	Contact Phone	Company Website
Mobile Opacity Testing	John Dotsy & Marlene Jones	Oxnard	SoCal & Can Travel	John.Dotsy@gmail.com	John: (805) 612- 5243 Marlene : (805) 824- 4245	N/A
Marine Engine Service, Inc.	Mike Doherty	Wilmington	SoCal	MESMd91@gmail.com	(310) 835- 8828	www.marineengineserviceinc.com
All Purpose Marine	Patrick Murray	Long Beach	Ventura to San Diego	APMD.Pat@gmail.com	(562) 810- 3629	allpurposemarine.com

For compliance with the CHC Regulation, individuals with any level of valid CCDET certification may perform CHC opacity testing. The alternative test method requires an engine inspection and documentation by a certified marine engine dealer, type classification society surveyors or engineers technician or CCDET-certified technician with an American Boat & Yacht Council diesel engine certification. Please see [Factsheet II](#) for more information. All opacity testing for CHC regulatory compliance must be completed in accordance with subsection (k) of the [CHC Regulation](#), including the adaptation of SAE J1667 as outlined in subsection (k)(1)(B).

In addition to the CCDET IV-certified vendors above, CHC operators seeking vendors for opacity testing CHC engines may also refer to CARB's land-based [Commercial Smoke Tester Courtesy List](#). However, please note that CARB CHC Program staff have not verified if the listed land-based commercial smoke testers are currently CCDET-certified for opacity testing or whether they are currently able and willing to test CHC engines.

Any CCDET-certified opacity vendors on the [Commercial Smoke Tester Courtesy List](#) who want to be listed as distinctly available to test engines in CHC applications, please contact HarborCraft@arb.ca.gov and request to be listed in updated versions of this list.
