

Regulatory Notice**Regulation for the Mandatory Reporting of Greenhouse Gas Emissions**

September 8, 2026

The purpose of this notice is to help the public understand when certain requirements in the 2026 Amendments to the Regulation for the Mandatory Reporting of Greenhouse Gas Emissions ("2026 MRR Amendments") will apply to entities covered by the regulation.

On August 31, 2026, the Office of Administrative Law approved the 2026 MRR Amendments and filed them with the California Secretary of State. The California Air Resources Board requested, and the Office of Administrative Law approved, a request for an early effective date for the 2026 MRR Amendments of September 1, 2026, pursuant to Government Code section 11343.4(b)(3), in place of the default effective date of October 1, 2026, as provided by Government Code section 11343.4(a)(4).

California Code of Regulations, title 17, section 95103(h) of the 2026 MRR Amendments provides the relevant dates for compliance. Specifically, section 95103(h) provides that all provisions of the regulation are in effect for 2027 data reported in 2028 and beyond, except as otherwise noted in section 95103(h)(1)-(5) and for specific requirements that are in effect for 2026 data reported in 2027 and beyond. Annual reporting deadlines remain unchanged under the 2026 MRR Amendments.
