CALIFORNIA AIR RESOURCES BOARD	Verizon Connect	EXECUTIVE ORDER IM-010-0001-5 Remote OBD Device Page 1 of 1

Pursuant to the authority vested in the California Air Resources Board (CARB) by Health and Safety Code Divisions 25.5 and 26, Part 5; pursuant to the authority vested in the undersigned by Health and Safety Code Sections 39515 and 39516 and Executive Orders EOD-23-010 and EO G-19-095; and in accordance with the procedures set forth in title 13, California Code of Regulations section 2197.2(h) of the Heavy-Duty Inspection and Maintenance (HD I/M) Regulation and in Attachment B to the HD I/M Regulation, California Standards for Heavy-Duty Remote On-Board Diagnostic Devices:

IT IS ORDERED AND RESOLVED: The following remote on-board diagnostic (OBD) device is certified as described below. Production of such devices shall be in all material respects the same as those for which certification is granted.

Device Name	**Xirgo; SW v1.30**
Compatible OBD Communication Protocol(s):	SAE J1939; SAE J1979; SAE J1979-2 (OBDonUDS)
OBD Test Device Type:	CC-ROBD
Compatible Equipment:	Xirgo XT6372R; Xirgo XT6383
Applicable Vehicles:	Non-gasoline heavy-duty vehicles equipped with OBD as defined by the HD I/M Regulation
Vendor's Partner Name:	N/A

BE IT FURTHER RESOLVED: For the listed remote OBD device, the vendor has demonstrated compliance with the HD I/M Regulation's "California Standards for Heavy-Duty Remote On-Board Diagnostic Devices,"[1] adopted August 22, 2022. The vendor has submitted the required information and therefore has met the criteria necessary to receive a California Executive Order. The vendor is aware of and has agreed to comply with the reporting requirements of title 13, California Code of Regulations section 2197.2(h), as specified in Attachment B, California Standards for Heavy-Duty Remote On-Board Diagnostic Devices Part III, section E.

BE IT FURTHER RESOLVED: This remote OBD device is allowed for sale and use in California on applicable vehicles. This remote OBD device is allowed for installation to the vehicle's OBD connector according to the specifications in section h(2) of the CARB heavy-duty OBD Regulation (section 1971.1, title 13, CCR). Any other installation of this remote OBD device requires an Aftermarket Parts Exemption Executive Order. Any changes in the certified device must be evaluated and approved by the California Air Resources Board.

Remote OBD devices certified under this Executive Order must conform to all applicable California regulations.

This Executive Order, effective until December 31, 2026, hereby supersedes Executive Order IM-010-0001-4 dated August 11, 2026.

Executed at Riverside, California on this 28th day of September 2026.
