MODIFICATION HIGHLIGHTS for
Executive Orders NVR-1-I

Part I: Executive Order

Global Change

- Changed revision letter from H to I for **NVR-1**
- Each xhibit separated into individual documents

Legal Language

- Added legal language outlining Husky Corporation (Husky) request to add E25 compatible version of their Model 6025 Nozzle.
- Added language renewing the certification of enhanced conventional nozzles and low permeation hoses, which expires on August 1, 2026

Exhibit 1: Equipment List

- Added notation that E25 version of Husky Model 6025 nozzle can be used in California with either E15 or E10 fuel blends.
- Added picture showing serial number location and labeling that indicates the difference between existing E10 compatible nozzle and E25 compatible nozzle.

Exhibit 2 to Exhibit 3

- NO CONTENT CHANGE
