

December 9, 2008

Chair Mary Nichols
California Air Resources Board
1001 I Street
P.O. Box 2815
Sacramento, CA 95812

ORIGINAL: Board Clerk
Copies: Executive Officer
Chair

Chair Nichols:

On behalf of 3,657 concerned activists from California, I ask that you ensure that the California Air Resources Board implement the On-Road Diesel Rule. This rule will clean up California's dirty air, protect public health, and meet upcoming federal air quality deadlines. Enclosed is the list of our petition's signatories, and below is the petition text.

The petition states that,

I urge you to implement the On-Road Diesel Rule and cut dangerous diesel emissions in California. Our state has already acted to protect the health of residents by placing tight restrictions on cigarette smoking. Smokers are prohibited from lighting up in bars, restaurants, cafes and within 20 feet of public-building doorways.

Yet Californians sitting in traffic or standing on street corners are forced daily to endure toxic diesel exhaust spouted by trucks and buses. The On-Road Diesel Rule would regulate diesel emissions from trucks, buses and other diesel vehicles. The law would safeguard the health of Californians and cut a significant source of greenhouse gases. I strongly urge you to support it.

Thank you. If you have any questions about CREDO's position on the On-Road Diesel Rule, please do not hesitate to contact me at the address above, or by phone at 415-369-2000.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Bond".

Becky Bond
Political Director, CREDO Action

Dale Robinson 1631 Hill Dr Los Angeles , CA 90041	"Although changes will be costly, the costs to our health and that of our planet will be more painful to bear if we don't make changes."	"It is bad enough that public transit and carpooling have not been implemented so that Californians need not drive nearly as much as they do, but until that happens every means by which particulate mater in our air is decreased must be used."

"It's especially important to consider citizens who work and, or live, in areas impacted by diesel fumes, like inner city or industrial areas. In the interest of social justice, these people have the same rights to clean air as people who live and, or work, in more desirable areas that are less impacted by diesel fumes, like suburbs. And, lets not forget children who must use buses to commute to school. Thank you for considering my thoughts." Candace H. 510 Hiller St Belmont, CA 94002	Charles M. 200 Ximeno Ave. long beach, CA 90803	"Diesel pollution is nasty. Nasty diesel pollution should not be allowed. It's an OBVIOUS health issue. "

	"On a recent business trip I had occasion to travel down to the port area of Long Beach California. As I waited for a friend there, I was horrified to see several huge trucks sitting- for the entire half hour I was there, with their diesel engines running continuously. Incredibly wasteful to say nothing of polluting, and certainly a practice that goes on daily, probably 24/7. This practice would be awful even with new well-serviced diesel engines, but certainly, these were not. The condition of these trucks made a bad situation worse. The industry should also be made to turn off their engines while waiting."	Cheryl Niccoli 1227 Chino St Santa Barbara , CA 93101

Frances Kelley 621 N West Knoll Dr West Hollywood , CA 90069	"I would also like very much to see the current speed limit on our highways of 65 miles an hour be vigorously enforced. When I'm on the highway i drive the current limit of 65 miles an hour and have to use the far right slow lane to keep from being crushed by the lead footed drivers in this state. And even then the cars behind me honk their horns at me to get me to speed up and the cars in the lanes left of me are passing at outrageous, illegal speeds. By the way, I drive a 2008 Honda Civic Hybrid which is fully capable of leaving those speeders in the dust and still do it with my emissions staying below permissible levels."	"It is time to put health and welfare in front of profits and convenience. When will our priorities align?"
"I am a life long Californian who has suffered, and continues to suffer, from asthma related to air pollution. Michael G. 13088 Vista Knolls Nevada City, CA 95959	"Dear Governor Schwarzenegger and Chair Nichols, Please take this seriously! This issue of cleaning up the toxic emissions from trucks, buses (school and private), and other diesel-powered vehicles: a rule known as the On-Road Diesel Rule; is long over due and a very serious health & environmental problem! AGAIN, The On-Road Diesel Rule would regulate diesel emissions from trucks, buses and other diesel vehicles. The law would safeguard the health of Californians and cut a significant source of greenhouse gases. I strongly urge you to support it!!! Most sincerely, Gary Frank "	Greg Williams 9801 Fremont Ave Montclair , CA 91763

"Polution from these diesel trucks and buses obviously polute the air and endanger workers, students and the air quality of the region. U.S. petroleum companies are allowed to add many toxic additives to diesel and this is forbidden in Europe. At the very least, require that they produce clean diesel. It is and outrage that this has been sanctioned for so long."

Kathy S. 36302 Mustang Spirit Ln. wildomar, CA 92595	"I am 65 years old and suffer from intermittent asthma, which only began to occur upon moving to West Oakland 12 years ago. I have no doubt, nor does my doctor, that this condition is caused by the emissions from diesel propelled vehicles, as well as the cargo ships that dock at the port of Oakland. In addition, 1 in 3 children suffer from asthma in West Oakland. Enough--something must be done about this intolerable situation! "	"You should live where i live,the aguculture area is live with spray and dust from farm equipment,if you complain they tell you to move but nobody in the state cares as long as they make that mighty dollar,i cant even afford to buy any of it,so on and on it goes. "

Richard S. 3980 Blue Gum Dr. San Jose, CA 95127	Robert D. 5128 Montair Ave Lakewood, CA 90712	"I am disabled and hardly make ends meet with my present SSI. Shaving this meager sum by using the lowest amount of Federal Assistance is threatening myself and many others in my position. Tell me please, do you think you could live on less than \$870.00 a month? Try it for yourself for just one year and I do believe you would revise your plan to shave my monthly income, and actually raise the incomes of Seniors and we disabled. I would like to add that cutting medical care is again, shaving the meager, hand to mouth incomes of not only the disabled and Seniors, but to the whole population of Californians with little and no medical or dental affordable health plan. Cutting funding for education is not only an ugly surprise from you, but the cruelest cut of all. California schools have long held a negative score compared to the rest of our United States, and sharply negative than many foreign education standards. Our children, and grandchildren need MORE funding in order to supply them with a full range of up to date text books, music programs, art programs, sports and the latest computer technology in their classrooms. I do hope this letter, or at least its content, actually gets your personal attention. And, by the way, how about raising DMV taxes on the excessive number of vehicles per household? But then, that would be the furthest thing from yours and so very many high income consumers minds. I voted for you, because I thought you would do the things you promised to. It is with a very

"I also believe that you should highly consider another solution to clean up dirty petroleum diesel exhaust that could be implemented tomorrow with very little if any modifications needed or higher costs incurred. That is to immediately require the use of at least 20% (and preferably 99%) biodiesel in all trucks and buses. This change-over in fuel (which is currently available and the use of which is supported by Barack Obama) would significantly curb emissions. I have been filling up my 2003 Volkswagen diesel with 99% biodiesel since I purchased the vehicle new. I have only experienced fantastic results in my five years of use. And no toxic, stinky exhaust. All diesels could and should run on this fuel!! "

"The time is now to clean up our air. Between the pollution coming from China and the dirty air from diesels, I believe my health is being affected. My son has developed asthma, and I have been suffering from constant eye and throat irritation for the last two years. I live in the busy SF Bay Area, so I know I am being exposed to a tremendous amount of toxic air. Please, help us clean up our air. It will be cost-effective when you consider the high cost of health care to treat millions for asthma-related illness and cancers and related costs. Thank you. "

"I read so many news stories about how concerned you are with sea level rising Mr. Governor. You hold a big environmental meeting in Calif. Yet you approve of building whole new cities causing more overpopulated conditions and more cars and pollution—new homes not even running off 100% renewable energy. You approve of toll roads running through our last SoCal natural watershed to the sea, rather than fighting for mass transit solutions instead. You need to understand the many factors that make up pollution contributing to global warming and in turn contributing to accelerated climate change which will cause the rising sea levels you seem so worried about. Trees, open spaces and clean watersheds running to the ocean is what you need to keep it the carbon down and the ocean water from warming and releasing even more greenhouse gases. Solar power, electric vehicles running off solar power—100% clean, not biofuels or natural gas, many of those solutions cause pollution to manufacture them so the goal is not really accomplished. Rooftops are one expansive wasted open space that could be used for solar power everywhere—legalize "oversized" solar panels and let property owners sell back their excess solar power to the electric companies—no more need for nuclear power plants or polluting coal or steam based plants. Water desalination—reverse osmosis please! And pull the contract from Poisidon for the planned dirty steam based desalination plants you are plan-

Logan P. 1823 Allston Way Berkeley, CA 94703		“As an owner of a clean diesel vehicle who runs bio-diesel fuel, I can see no reason why the transportation and trucking industry can not convert to clean diesel technology as well as the use of bio-diesel as a way of reducing our reliance on petroleum based fuels and helping to reduce and eliminate harmful green-house producing emissions. These technologies have a proven track record in many states and the fuels are readily available to vehicle fleets nationwide. There is no viable reason why it shouldn’t be the law in a state like ours that has lead the nation in forcing manufacturers to meet the strictest emissions standards in the country.”
L Y. 400 Westlake Daly City, CA 94014		
“I have been offended for a very long time by diesel trunk & bus emissions that are clearly evident simply from sharing the roadways with them. Please do anything and everything to stop this dangerous source of emissions.”	Sherie H. 3675 Emmanuel Way Alpine, CA 91901
