

Dear CARB,

14-3-2

The proposed amendments to the truck and bus regulation will increase the cost of living in California. As truckers and companies will go out of business, the cost of goods and services will increase. This regulation will increase unemployment rates. It will increase prices at the store. It will force many truckers out of business.

I urge you to oppose this regulation agenda item. 14-3-2.

Sincerely,

Sal Frausto
