To Chairwoman Randolph and members of CARB,

On behalf of members of the California State Senate Republican Caucus, I am writing to inform you that in just a few days 12,981 Californians have signed a petition urging the California Air Resources Board (CARB) to postpone the upcoming vote on proposed amendments to the Low-Carbon Fuel Standard (LCFS) program. These Californians are concerned about the potential increase in fuel costs, with estimates indicating a rise of 65 to 85 cents per gallon.

The attached petition reflects Californians' call for transparency in evaluating the financial impact of the proposed LCFS amendments on consumers. We urge CARB to provide clear, public information on the cost implications of these changes before moving forward with any policy amendments.

Thank you for considering this substantial public response.

Sincerely,

California State Senate Republicans & Concerned Citizens
