Subject: Emission Reducing or Regs increasing?

Comment:

What are the key results metrics minimums , to satisfy reduction emissions results return on investment? 10% to 20% Nox reduction or MPG incese in mpg, based on original vehicle manufacturer specifications. There are options using existing technology that have already been proven to improve vehicle performance and efficiency. Replacing brake system using magnetics, active software enhancements for OEM operating software and adding on-demand hydrogen integration with all fossil fueled vehicles.
