Subject: Re: Comments to CARB Proposed 15-Day Modifications, SPECIFICATIONS FOR FILL PIPES AND OPEN

Comment:

It has been great to have this cross-functional work group working towards the resolutions of the specification and regulations. As the Chairman of the Refueling Taskforce and the Fuel Systems Subcommittee and Fuel Systems Committee, I have found that the relationships on a personal and business level with CARB, (Jason, Shobna, Lou, Tahir, Michelle, Sam, Gurj, and John) have created a well-functioning team. As this team set out, we strived to develop a common understanding and goal towards improved interfaces spelled out in the series of specifications on both the CARB regulatory and the SAE side.

I have personally read the latest modification several times and found that this embodies what our team worked towards in the taskforce.

At this time, I would like to congratulate the team at CARB, SAE, automotive community, and dispenser community for working together to this common goal.

Jason, once again, thank you for the work you have performed on this specification, as well as all the time and efforts working with the SAE Refueling Taskforce on the series of specifications we have developed. It has been a pleasure developing the relationships and working with you.

MICHAEL T. ZITKOVIC, on behalf of the SAE Refueling Interface Taskforce and Fuel Systems Committee

Re: Comments to CARB Proposed Second 15-Day Modifications,
SPECIFICATIONS FOR FILL PIPES AND OPENINGS OF 2015 AND SUBSEQUENT
MODEL MOTOR VEHICLE FUEL TANK

Dear Mr. Gordon:
After review of the second notification, the teams from SAE see no
issues with the proposed modifications.
