Subject: Test Methods
Comment:

If this hearing is about considering no longer testing tail pipe emissions on 2000 and newer vehicles. I would encourage this hearing to vote no. I have seen tail pipe emissions failing on these vehicles even when no codes are present. I also would like to see a test added to our current load test . This would be a test at idle for tail pipe emissions . There are many cars at idle in traffic polluting that would fail a basic area idle tailpipe test. These vehicles pass our enhanced area loaded test.

Yours Truly,

Matt Darton EA042834 inspector license #
