Subject: Amendments to At-Berth Regulation in Richmond

Comment:

I support implementing amendments to existing regulation to control emissions from ocean-going vessels while at port anywhere in California. The health effects of diesel engines at port are lethal.

Subject: reject delay on pollution from shipping at docks

Comment:

The air we breathe is a public trust. The fossil fuel industry thinks differently, they see it as a waste bin. Delay in regulation is just fine with the polluters. They fight hard to keep things cheap and easy for themselves. We humans need clean air to be healthy. Do your best to make the laws reflect the people and not the greed. Thank you for your consideration of this matter.
Gilbert Williams
