Subject: need more regulations for freight facilities

Comment:

Ocean vessels release high amounts of NOX and Diesel particulates, therefore they should be regulated. Trucks should use fuel cells or battery electric not natural gas. Going to CNG or LNG trucks is a waste of money because they emit the same amount of Greenhouse Gases, and almost as much NOx as diesel(from Dr Jim Stewart).

Comment:

Freight trains rumble through the City of Fresno in the middle of the night at 1 am and 4 am blowing horns and whistles disturbing a quarter of the residents of the City. The trains should slow down at night. Electric engines are quieter than diesel. Several doctors of integrative medicine link inadequate sleep to heart disease, Alzheimer's, and autoimmune diseases.
