

## EXECUTIVE ORDER D-126-53

### Relating to Exemptions Under Section 27156 of the California Vehicle Code

#### General Motors Performance Air Induction Kit

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

**IT IS ORDERED AND RESOLVED:** That the installation of the Performance Air Induction Kit, manufactured and marketed by General Motors, 30003 Van Dyke Avenue Warren, Michigan 48090, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the following vehicle applications:

<b>Part Number</b>	<b>Vehicle application</b>
84756329*	2014 to 2016 5.3L Silverado/Sierra/Yukon/Yukon XL/Tahoe/Suburban
84655710	2017 to 2020 3.6L Canyon/Colorado
84794977	2019 5.3L Silverado/Sierra/Yukon/Yukon XL/Tahoe/Suburban
84794978	2020 5.3L Yukon/Yukon XL/Tahoe/Suburban
84651227**	2016 to 2020 6.2L Camaro
84789792**	2019 to 2020 5.3L Silverado/Sierra
84789794**	2019 to 2020 6.2L Silverado/Sierra

\* The stock vehicle does not have an HCT so this kit does not include an HCT. All other vehicles listed do include an HCT so a new HCT is permanently affixed inside the new MAF tube.

\*\* ECU upgraded with a new MAF calibration only with no user adjustments.

The Performance Air Induction Kit includes the following main components: New closed element air box with see through lid, conical air filter, and a new MAF tube. The stock MAF sensor element is re-installed in the new MAF tube in a stock location and orientation. No other changes are required for proper installation.

**Installation of the Performance Air Induction Kit requires the removal of the stock air filter housing. If the stock air filter housing contains the vehicle's tune-up & emissions control decal, a replacement decal must be placed in a similar location.**

This Executive Order is valid provided that the installation instructions for the Performance Air Induction Kit will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Performance Air Induction Kit, as exempt by the California Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Performance Air Induction Kit advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Performance Air Induction Kit using any identification other than that shown in this Executive Order or marketing of the Performance Air Induction Kit for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Performance Air Induction Kit may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on emission test data and other documentation submitted by General Motors.

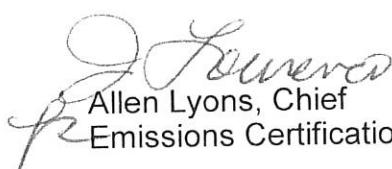

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE PERFORMANCE AIR INDUCTION KIT.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 25<sup>nd</sup> day of August 2019.

  
Allen Lyons, Chief  
Emissions Certification and Compliance Division
