

## EXECUTIVE ORDER D-161-124

Relating to Exemptions Under Section 27156  
of the California Vehicle Code

Gale Banks Engineering  
Monster Turbine Outlet Pipe  
Part Number 52105

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That the installation of the Monster Turbine Outlet Pipe, manufactured and marketed by Gale Banks Engineering, 546 Duggan Avenue Azusa, California 91702, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for 1994 to 1997 model year Ford 7.3L diesel trucks.

The Monster Turbine Outlet Pipe is a replacement exhaust pipe, made of 3.0" diameter, 0.055" wall thickness, 409 stainless steel tubing, which connects to the turbocharger turbine outlet and routes the exhaust to the catalytic converter inlet. No sensors are removed or relocated and the stock catalyst is retained in the stock location.

This Executive Order is valid provided that the installation instructions for the Monster Turbine Outlet Pipe will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Monster Turbine Outlet Pipe, as exempt by the California Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Monster Turbine Outlet Pipe advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Monster Turbine Outlet Pipe using any identification other than that shown in this Executive Order or marketing of the Monster Turbine Outlet Pipe for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Monster Turbine Outlet Pipe may have on any warranty either expressed or implied by the vehicle manufacturer.

Exemption of the Monster Turbine Outlet Pipe shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based on an engineering evaluation of information supplied by Gale Banks Engineering on the Monster Turbine Outlet Pipe.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE MONSTER TURBINE OUTLET PIPE.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 13<sup>TH</sup> day of August 2019.

Allen Lyons, Chief  
Emissions Certification and Compliance Division
