

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER D-267-5
Relating to Exemptions Under Section 27156
of the Vehicle Code

CYCLONE USA, INC.
Tornado Air Management System

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-45-9;

IT IS ORDERED AND RESOLVED: That the installation of the Tornado Air Management System manufactured and marketed by Cyclone USA, Inc. of 13360-H Firestone Blvd., Santa Fe Springs, California 90670 has been found not to reduce the effectiveness of required motor vehicle pollution control devices and, therefore, is exempt from the prohibitions of Section 27156 of the California Vehicle Code for all 2001 model-year and older vehicles.

The Tornado Air Management System is a one-piece metal device that is placed either in the intake air ducting or inside the air cleaner. The device is designed to cause the air entering the engine to become turbulent.

This Executive Order shall not apply to any Cyclone USA, Inc. Tornado Air Management System advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

This Executive Order is valid provided that the installation instructions for the Tornado Air Management System will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the device, as exempted by the Air Resources Board (ARB), that adversely affect the performance of a vehicle's pollution control system shall invalidate this Executive Order.

Marketing of this device using any identification other than that shown in this Executive Order or marketing of this device for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the ARB.

This Executive Order does not constitute any opinion as to the effect that the use of this device may have on any warranty either expressed or implied by the vehicle manufacturer.

This exemption is issued based on an engineering evaluation on the impact of the Tornado Air Management System on emissions as well as an examination of the On Board Diagnostic II (OBD II) system which showed that the installation of the Tornado Air Management System will not affect emissions or the vehicle's ability to perform OBD II monitoring.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF CYCLONE USA, INC.'S TORNADO AIR MANAGEMENT SYSTEM.

No claims of any kind, such as "Approved by the Air Resources Board" may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after ten day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executive Order D-267-4, dated February 1999 is superseded and of no further force and effect.

Executed at El Monte, California, this 31st day of October 2000.

A handwritten signature in black ink, appearing to read "R. B. Summerfield", is written over the printed name and title.

R. B. Summerfield, Chief
Mobile Source Operations Division
