

State of California  
AIR RESOURCES BOARD

EXECUTIVE ORDER D-269-31

Relating to Exemptions Under Section 27156  
of the California Vehicle Code

K&N Engineering  
Fuel Injection Performance Kit and 77 Series Intake Systems

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the installation of the Fuel Injection Performance Kit and 77 Series Intake Systems, produced and marketed by K&N Engineering of 1455 Citrus Ave., Riverside, California 92507, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the vehicles listed in Exhibit A.

The Fuel Injection Performance Kit and 77 Series Intake Systems include the following main components: open-element reusable air filter, heat shield (as applicable), intake system tubing, crankcase ventilation hose (as applicable, which may be silicone, and a color other than black), assorted brackets, and hardware.

This Executive Order is valid provided that the installation instructions for the Fuel Injection Performance Kit and 77 Series Intake Systems will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Fuel Injection Performance Kit and 77 Series Intake Systems, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Fuel Injection Performance Kit and 77 Series Intake Systems advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Fuel Injection Performance Kit and 77 Series Intake Systems using any identification other than that shown in this Executive Order or marketing of the Fuel Injection Performance Kit and 77 Series Intake Systems for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Fuel Injection Performance Kit and 77 Series Intake Systems units may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on emission test results in the modified configuration using the Cold-Start CVS-75 Federal Test Procedure, Supplemental Federal Test Procedure (US06), and an examination of the On-Board Diagnostic II (OBD II) systems. A 2005 Chrysler PT Cruiser with a 2.4 liter engine (5CRXV0148M80, LEV-II ULEV) and 2005 Dodge Dakota with a 4.7 liter engine (5CRXT04.75S0, LEV, MDV2) were used for the evaluation of the Fuel Injection Performance Kit and 77 Series Intake Systems. Results from emissions testing conducted at Quantum Technologies, are shown below (in grams per mile):

2005 Chrysler PT Cruiser

FTP	50k	NMOG	CO	NOx	HCHO
Emission Level		0.032	0.568	0.012	0.001
(DF applied)					
STD		0.075	3.4	0.05	0.015
	120k	NMOG	CO	NOx	HCHO
Emission Level		0.040	0.714	0.023	0.001
(DF applied)					
STD		0.090	4.2	0.07	0.018

2005 Dodge Dakota

US06	NMHC + NOx	CO
Emission Level	0.17	1.0
STD	0.4	10.5

The emission test results in the modified configuration were below the applicable certification standards. Examination of the OBD II system showed the Fuel Injection Performance Kit and 77 Series Intake Systems will not affect OBD II operation.

If evidence provides the Air Resources Board with reason to suspect that the Fuel Injection Performance Kit and 77 Series Intake Systems will affect the durability of emission control systems, K&N Engineering shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

The Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE

AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF K&N ENGINEERING'S FUEL INJECTION PERFORMANCE KIT AND 77 SERIES INTAKE SYSTEMS.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 1<sup>ST</sup> day of March 2006.

Allen Lyons, Chief  
Mobile Source Operations Division
