

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER D-325-1

Relating to Exemptions Under Section 27156
of the Vehicle Code

Best Products, Inc.
Pro-M Mass Air Flow Sensor

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the installation of the Pro-M Mass Air Flow Sensor, manufactured and marketed by Best Products, Inc., 21890 Meyers Road, Oak Park, Michigan 48237 has been found not to reduce the effectiveness of the applicable vehicle pollution control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for applicable 1988 through 2002 model year Ford vehicles as listed in Exhibit A, excluding the following 2002 model year engine test groups which are certified to the Supplemental Federal Test Procedure: 2FMXT04.02F8 and 2FMXA05.4HJD.

The Pro-M Mass Air Flow Sensor is designed with two main parts: the sensor body and the electronics. The body is manufactured out of a one piece metal casting, and contains an inlet tube, the sensor mounting, and an outlet tube. The electronics are manufactured by Ford Motor Company as a stock replacement. The sensor fits in the stock location with no modifications to the vehicle's electrical system or intake air system.

This Executive Order is valid provided that the installation instructions for the Pro-M Mass Air Flow Sensor will not recommend tuning the vehicle to specifications different from those of Best Products, Inc.

This Executive Order shall not apply to any Pro-M Mass Air Flow Sensor advertised, offered for sale, sold with, or installed on a vehicle prior to or concurrent with transfer to an ultimate purchaser.

Changes made to the design or operating conditions of the Pro-M Mass Air Flow Sensor, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

Marketing of the Pro-M Mass Air Flow Sensor using any identification other than that shown in this Executive Order or marketing of the Pro-M Mass Air Flow Sensor for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board. Exemption of the Pro-M Mass Air Flow Sensor shall not be construed as exemption to sell, offer for sale, or advertise any component of the kit as an individual device.

This Executive Order does not constitute any opinion as to the effect the use of the Pro-M Mass Air Flow Sensor may have on any warranty either expressed or implied by Best Products, Inc.

The ARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF BEST PRODUCTS, INC.'S PRO-M MASS AIR FLOW SENSOR.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 23rd day of December 2004.

Raphael S. Lyons, Chief
Mobile Source Operations Division
