

State of California  
AIR RESOURCES BOARD

EXECUTIVE ORDER D-40-41

Relating to Exemptions Under Section 27156  
of the California Vehicle Code

Autotronic Controls Corporation  
MSD Multi-Spark Coil

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the installation of the MSD Multi-Spark Coil, manufactured and marketed by the Autotronic Controls Corporation, 1490 Henry Brennan Drive, El Paso, Texas 79936, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for 1998 to 2008 model year General Motors vehicles equipped with either a 4.8, 5.3, 5.7, 6.0, or 8.1 liter displacement engine.

The MSD Multi-Spark Coil is a multi-spark ignition coil designed to replace the stock ignition coil. The MSD Multi-Spark Coil has no user adjustments.

This Executive Order is valid provided that the installation instructions for the MSD Multi-Spark Coil will not recommend tuning the vehicle to specifications different from those submitted by the device manufacturer.

Changes made to the design or operating conditions of the MSD Multi-Spark Coil, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any MSD Multi-Spark Coil advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the MSD Multi-Spark Coil using any identification other than that shown in this Executive Order or marketing of the MSD Multi-Spark Coil for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the MSD Multi-Spark Coil may have on any warranty either expressed or implied by the vehicle manufacturer.

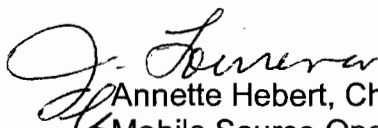

This Executive Order is granted based on an engineering evaluation and On-Board Diagnostic II (OBD II) system testing on a 2008 model year Chevrolet Truck. Examination of the OBD II system showed the MSD Multi-Spark Coil did not affect OBD II system operation.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE MSD MULTI-SPARK COIL.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 16<sup>th</sup> day of July 2008.

Annette Hebert, Chief  
Mobile Source Operations Division
