

EXECUTIVE ORDER D-476-11

Relating to Exemptions Under Section 27156 of the California Vehicle Code

Injen Technology Co. LTD
Cyborg, PowerFlow, and Evolution Intake Systems

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Cyborg, PowerFlow, and Evolution Intake Systems, manufactured and marketed by Injen Technology Co. LTD, 244 Pioneer Place Pomona, California 91768, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the vehicle applications listed in Exhibit A.

The Cyborg Intake System includes an air filter and air intake tube from the air filter to the throttle body, along with necessary hardware and clamps for installation. There are no other changes to the engine and the ECM is not reflashed.

The PowerFlow Intake System includes an air filter, air intake tube from the air filter to the throttle body, heat shield for the air filter, and necessary hardware and clamps for installation. All stock sensors are maintained in a similar location and orientation. There are no other changes to the engine and the ECM is not reflashed.

The Evolution Intake System includes an enclosed housing, air filter, air intake tube from the air filter to the throttle body, and necessary hardware and clamps for installation. All stock sensors are maintained in a similar location and orientation. There are no other changes to the engine and the ECM is not reflashed.

This Executive Order is valid provided that the installation instructions for the Cyborg, PowerFlow, and Evolution Intake Systems will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Cyborg, PowerFlow, and Evolution Intake Systems, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Cyborg, PowerFlow, and Evolution Intake Systems advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Cyborg, PowerFlow, and Evolution Intake Systems using any identification other than those shown in this Executive Order or marketing of the Cyborg, PowerFlow, and Evolution Intake Systems for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Cyborg, PowerFlow, and Evolution Intake Systems may have on any warranty either expressed or implied by the vehicle manufacturer.

Exemption of the Cyborg, PowerFlow, and Evolution Intake Systems shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based on information submitted by Injen Technology Co. LTD, including emissions test data.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE CYBORG, POWERFLOW, AND EVOLUTION INTAKE SYSTEMS.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this _____^{10th} day of September 2020.

for Allen Lyons, Chief
Emissions Certification and Compliance Division
