CALIFORNIA
AIR RESOURCES BOARD

EXECUTIVE ORDER D-476-12

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Injen Technology
Evolution Cold Air Intake Systems and Power-Flow Air Intake Systems

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That the installation of the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems intake system, produced and marketed by Injen Technology of 244 Pioneer Place, Pomona, California 91768, have been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, are exempt from the prohibitions of Section 27156 of the Vehicle Code for the GM vehicles listed in the attached Exhibit A.

The Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems include the following main components: reusable air filter, intake system tubing, assorted brackets, and hardware.

This Executive Order is valid provided that the installation instructions for the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems, as exempt by the California Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems using any identification other than that shown in this Executive Order or marketing of the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on emission test results in the modified configuration to satisfy the requirements of a prior Executive Order with earlier vehicle coverage, D-476-5. However, it should be noted that vehicle coverage under this Executive Order is provided under the condition to exclude all vehicle models equipped with hybrid drivetrains, intake air hydrocarbon traps, or certified to Super Ultra-Low Emission Vehicle Standards (SULEV). These exclusions are listed within the vehicle coverage granted by this Executive Order in the attached Exhibit A.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides the California Air Resources Board with reason to suspect that the Evolution Cold Air Intake Systems, and Power-Flow Air Intake Systems will affect the durability of emission control systems, Injen Technology shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE INJEN TECHNOLOGY EVOLUTION COLD AIR INTAKE SYSTEMS, AND POWER-FLOW AIR INTAKE SYSTEMS INTAKE SYSTEMS.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed this of 22nd day March 2021.

Allen Lyons, Chief
Emissions Certification and Compliance Division
