

EXECUTIVE ORDER D-660-348

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Cobb Tuning
Stage1&Stage1+ Power Package for Toyota

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Stage1&Stage1+ Power Package for Toyota, manufactured and marketed by Cobb Tuning of 2311 West Rundberg Lane, Suite 500, Austin, Texas 78758, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the Toyota hybrid vehicles as described in Exhibit A.

The Stage1&Stage1+ Power Package for Toyota includes new engine and transmission calibrations and a new air intake system. For the Stage 1+ Power Package, the new air intake replaces the stock air intake, including the top half of the airbox, and features a new conical air filter. For the Stage1 Power Package, the air intake system modifications only consist of a new flat air filter. The calibrations are intended to provide more power by taking advantage of higher octane fuel. 2 levels of engine tune are available for 87, 91, and 93 octane fuel: Stage1 and Performance Tow. 3 levels of transmission tune are available: Simulated Stock, COBB OEM+, or Sport. A valet and anti-theft mode are also available. The following user-adjustable features are available: tire size adjustment, Auto stop/start disable, dynamic pedal control, and dyno mode. The calibration is installed into the vehicle via the Cobb Tuning Accessport.

This Executive Order is valid provided that the installation instructions for the Stage1&Stage1+ Power Package for Toyota will not recommend tuning the vehicle to specifications different from those specified by Cobb Tuning.

Changes made to the design or operating conditions of the Stage1&Stage1+ Power Package for Toyota, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Stage1&Stage1+ Power Package for Toyota advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Stage1&Stage1+ Power Package for Toyota using any identification other than those shown in this Executive Order or marketing of the Stage1&Stage1+ Power Package for Toyota for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Stage1&Stage1+ Power Package for Toyota may have on any warranty, either expressed or

implied by the vehicle manufacturer; or compliance with any other state, federal, or local law, such as safety equipment requirements or noise limitations.

Exemption of the Stage1&Stage1+ Power Package for Toyota shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based on information submitted by Cobb Tuning.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to ensure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides the California Air Resources Board with reason to suspect that the Stage1&Stage1+ Power Package for Toyota will affect the durability of emission control systems, Cobb Tuning shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF COBB TUNING CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE STAGE1&STAGE1+POWER PACKAGE FOR TOYOTA.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 4th day of September 2026.

Robin U. Lang for

Robin U. Lang, Chief,
Emissions Certification and Compliance Division

Exhibit A

Stage 1 Power Package Part #	Air Filter Part #	Accessport Part #	Model Year	Make	Model	Engine
TOY004001	7T4100	AP3-TOY-004	2024-2026	Toyota	Tacoma Hybrid 4WD	2.4L TC*
