

EXECUTIVE ORDER D-660-86

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Cobb Tuning
Mazdaspeed Turbo Inlet Hose

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Mazdaspeed Turbo Inlet Hose, manufactured and marketed by Cobb Tuning of 2311 West Rundberg Lane, Suite 500, Austin, Texas 78758 has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for 2007-2013 Mazdaspeed 3 and 2006-2007 Mazdaspeed 6 vehicles.

The Mazdaspeed Turbo Inlet Hose (part number 771001-BK and 771001-BL) is designed as a drop-in replacement for the original manufacturer part, with the goal of providing smoother airflow to the turbocharger from the air intake. It maintains the same stock connections to other systems, and re-uses stock connecting hardware. This modification does not modify the electronic control unit (ECU).

This Executive Order is valid provided that the installation instructions for the Mazdaspeed Turbo Inlet Hose will not recommend tuning the vehicle to specifications different from those specified by the vehicle manufacturer.

Changes made to the design or operating conditions of the Mazdaspeed Turbo Inlet Hose, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Mazdaspeed Turbo Inlet Hose advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Mazdaspeed Turbo Inlet Hose using any identification other than those shown in this Executive Order or marketing of the Mazdaspeed Turbo Inlet Hose for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Mazdaspeed Turbo Inlet Hose may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on information submitted by Cobb Tuning, including emissions test data.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified

part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE MAZDASPEED TURBO INLET HOSE.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 14th day of March 2022.

Allen Lyons, Chief
Emissions Certification and Compliance Division
