

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER D-676-4

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Taylor Cable Products, Inc.
Helix Power Tower

Pursuant to the authority vested in the Air Resources Board (ARB) by Section 27156 of the Vehicle Code (VC); and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: That the installation of the Helix Power Tower, manufactured and marketed by Taylor Cable Products, Inc., 301 High Grove Road, Grandview, Missouri 64030, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the vehicles listed in Exhibit A.

The Helix Power Tower is an aluminum spacer plate, approximately one inch thick with machined helical grooves on the inside ports, and is installed adjacent to the vehicle's throttle body or carburetor. No changes are made to any other components of the stock engine, including engine calibration.

This Executive Order is valid provided that installation instructions for the Helix Power Tower will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Helix Power Tower, as exempt by the ARB, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Helix Power Tower advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Helix Power Tower using any identification other than that shown in this Executive Order or marketing of the Helix Power Tower for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the ARB.

This Executive Order does not constitute any opinion as to the effect the use of the Helix Power Tower may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on an engineering evaluation which determined that the Helix Power Tower will have no adverse emissions impact for the vehicles listed in Exhibit A. Accordingly, the ARB reserves the right to conduct additional emissions tests, in the future, for any vehicles subject to more stringent emissions categories, or if the ARB finds that reasonable grounds exist to believe that use of the Helix Power Tower may adversely affect evaporative emissions. Furthermore, On-Board Diagnostic II (OBD II) testing, using a 2014 Ford F-150 5.0L, 2015 BMW 328i 2.0L turbocharged, 2015 Chevrolet Camaro 3.6L, and 2014 Honda Accord 2.4L showed that the Helix Power Tower when installed on the vehicles has no adverse effects on the vehicle's ability to perform OBD II monitoring.

ARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides the ARB with reason to suspect that the Helix Power Tower will affect the durability of emission control systems, Taylor Cable Products, Inc. shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE TAYLOR CABLE PRODUCTS, INC. HELIX POWER TOWER.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 18th day of August 2016.

Annette Hebert, Chief

Emissions Compliance, Automotive Regulations and Science Division
