CALIFORNIA
AIR RESOURCES BOARD

EXECUTIVE ORDER D-759-26

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Mishimoto Automotive
Performance Air Intake

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Performance Air Intake, manufactured and marketed by Mishimoto Automotive of 1515 Garnet Mine Road, Garnet Valley, Pennsylvania 19060, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the California Vehicle Code for installation on the vehicles listed in Exhibit A.

The Performance Air Intake includes two airboxes, two air filters, two CNC MAF housings, silicone couplers, and worm gear clamps in place of the OEM components. The stock MAF sensors fit directly into the CNC MAF housings. No other changes are required for proper installation. There are no end-user modifications to the ECU calibration, no other adjustable parameters, and no other major engine modifications.

This Executive Order is valid provided that the installation instructions for the Performance Air Intake will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Performance Air Intake, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system, shall invalidate this Executive Order.

This Executive Order shall not apply to any Performance Air Intake advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Performance Air Intake using any identification other than those shown in this Executive Order or marketing of the Performance Air Intake for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Performance Air Intake may have on any warranty, either expressed or implied by the vehicle manufacturer; or compliance with any other state, federal, or local law, such as safety equipment requirements or noise limitations.

Exemption of the Performance Air Intake shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based on information supplied by Mishimoto Automotive.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to ensure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides the California Air Resources Board with reason to suspect that the Performance Air Intake will affect the durability of emission control systems, Mishimoto Automotive shall be required to submit durability data to show that the durability of vehicle emission control systems is not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF MISHIMOTO AUTOMOTIVE CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE PERFORMANCE AIR INTAKE.

No claim of any kind, such as "Approved by the California Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this Executive Order. The Executive Order may be revoked only after a 10-day written notice of intention to revoke the Executive Order, in which period the holder of the Executive Order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the Executive Order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 17th day of December 2025.

Robin U. Lang

Robin U. Lang, Chief
Emissions Certification and Compliance Division

Exhibit A

Part Number	Model Year	Vehicle Model*	Engine**
MMAI-Z-23X	2023-2025	Nissan Z	3.0L TC
MMAI-Z-23X	2024-2025	Nissan Z Nismo	3.0L TC

* This coverage includes every model listed in all of the following Test Groups/Engine Families: PNSXV03.0PXA, RNSXV03.0PXA, SNSXV03.0PXA.
**TC means turbocharged.
