CALIFORNIA
AIR RESOURCES BOARD

EXECUTIVE ORDER D-759-6

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Mishimoto Automotive
Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kit,
Cold-Side Intercooler Pipe, and Hot-Side Intercooler Pipe

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits, manufactured and marketed by Mishimoto Automotive, 18 Boulden Circle, Suite 14 New Castle, Delaware 19720, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the Ford vehicle applications listed in Exhibit A.

The Mishimoto Performance Intercooler is a direct fit intercooler that replaces the stock intercooler and connects to the stock connecting tubes. All sensors are kept in the stock location and orientation. No changes are made to any other components of the stock engine, including engine calibration.

The Mishimoto Performance Intercooler Kit consists of the following main components: direct fit intercooler, aluminum connecting tubes, silicon hoses, and necessary hose clamps. All sensors are kept in the stock location and orientation. No changes are made to any other components of the stock engine, including engine calibration or boost pressure.

The Mishimoto Intercooler Pipe Kits are direct fit aluminum connecting tubes and hoses that replace the stock connecting tubes that connect to the inlet and outlet of the intercooler. All sensors are kept in the stock location and orientation. No changes are made to any other components of the stock engine, including engine calibration.

This Executive Order is valid provided that the installation instructions for the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits, as exempt by the California Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits using any identification other than those shown in this Executive Order or marketing of the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits may have on any warranty either expressed or implied by the vehicle manufacturer.

Exemption of the Mishimoto Performance Intercooler, Performance Intercooler Kit, and Intercooler Pipe Kits shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based information, including test data, supplied by Mishimoto Automotive in support of this Executive Order.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE MISHIMOTO PERFORMANCE INTERCOOLER, PERFORMANCE INTERCOOLER KIT, AND INTERCOOLER PIPE KITS.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 17TH day of October 2019.

Allen Lyons, Chief
Emissions Certification and Compliance Division
