CALIFORNIA
AIR RESOURCES BOARD

# EXECUTIVE ORDER D-827

Relating to Exemptions under Section 27156
of the California Vehicle Code

Trask Performance
Assault Air Cleaner

Pursuant to the authority vested in the California Air Resources Board (CARB) by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That the installation of the Assault Air Cleaner, produced by Trask Performance of 21601 North 3rd Avenue Suite D, Phoenix, Arizona 85027, and marketed by Trask Performance and LeMans, Inc. has been found not to reduce the effectiveness of the applicable vehicle pollution control systems, and therefore, is exempt from the prohibitions in Section 27156 of the Vehicle Code for installation on those vehicles listed in the attached Exhibit A.

The Assault Air Cleaner may include the following main components: air filter element, backing plate, filter enclosure (as applicable), breather bolts and assorted hardware.

This Executive Order is valid provided that installation instructions for the Assault Air Cleaner do not recommend tuning the vehicles to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Assault Air Cleaner, as exempt by GARB, which adversely affect the performance of the vehicles' emission control system, shall invalidate this Executive Order.

Marketing of the Assault Air Cleaner using any identification other than that shown in this Executive Order or for an application other than that listed in this Executive Order shall be prohibited unless prior approval is obtained from CARB.

This Executive Order does not constitute any opinion as to the effeet the use of the Assault Air Cleaner may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on submitted test data provided by Tovatt Engineering, .Inc. of Huntington Beach, California. This test data was based on Cold-Start CVS-75 Federal Test Procedure tests. The test data verified that with the Assault Air Cleaner installed, the exhaust emission levels did not exceed the new vehicle certification standards. As a result, this Executive Order is being issued for 2019 model year (MY) and older Harley Davidson motorcycles as listed in the attached Exhibit A.

CARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of California Code of Regulations, Title 13, Section 2222, et seq. Further, if test results or other evidence provides CARS with reason to suspect that the Assault Air Cleaner will affect the durability of emission control systems, Trask Performance shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified parts demonstrate adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY CARS OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF TRASK PERFORMANCE' ASSAULT AIR CLEANER.

No claim of any kind, such as "Approved by the California Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this Executive Order. The Executive Order may be revoked only after a ten day written notice of intention to revoke the Executive Order, in which period the holder of the Executive Order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request, and the Executive Order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, 24TH this day of October 2019.

Allen Lyons, Chief
Emissions Certification and Compliance Division

# Exhibit A
