

EXECUTIVE ORDER D-873-2

Relating to Exemptions Under Section 27156 of the California Vehicle Code

Enthusiast Auto Care, Inc. EAC Flash Tune

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the EAC Flash Tune, manufactured and marketed by Enthusiast Auto Care, Inc. of 4632 Adams Drive, Concord, California 94521, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the 3.7L Nissan/Infiniti vehicles as listed in Exhibit A.

The EAC Flash Tune is a new calibration. The calibration is delivered to the ECU via the provided EcuTek unit connected via Bluetooth to a computer. The calibration increases horsepower by modifying fuel and timing values, alongside other adjustments. It also modifies the revolution limiter, knock control, and adds a fail-safe based on the engine coolant temperature and air-fuel ratio. An "anti-theft" mode and "valet" mode are included. Launch control and Flat foot shifting are also available for vehicle models with a manual transmission. 91 Octane fuel is required. No hardware modifications are included as a part of this modification.

This Executive Order is valid provided that the installation instructions for the EAC Flash Tune will not recommend tuning the vehicle to specifications different from those specified by Enthusiast Auto Care, Inc..

Changes made to the design or operating conditions of the EAC Flash Tune, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system shall invalidate this Executive Order.

This Executive Order shall not apply to any EAC Flash Tune advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the EAC Flash Tune using any identification other than those shown in this Executive Order or marketing of the EAC Flash Tune for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the EAC Flash Tune may have on any warranty, either expressed or implied by the vehicle manufacturer; or compliance with any other state, federal, or local law, such as safety equipment requirements or noise limitations.

Exemption of the EAC Flash Tune shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based on information submitted by Enthusiast Auto Care, Inc., including emissions test data.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to ensure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides the California Air Resources Board with reason to suspect that the EAC Flash Tune will affect the durability of emission control systems, Enthusiast Auto Care, Inc. shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF ENTHUSIAST AUTO CARE CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE EAC FLASH TUNE.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 16th day of July 2025.

A handwritten signature in blue ink that reads "Robin U. Lang". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Robin U. Lang, Chief,
Emissions Certification and Compliance Division
