

EXECUTIVE ORDER D-883

Relating to Exemptions Under Section 27156 of the California Vehicle Code

Overland Tailor Tuning OTT Torque Tune

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the OTT Torque Tune, manufactured and marketed by Overland Tailor Tuning of 709 Heritage Park Lane, Hoover, Alabama 35226, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the California Vehicle Code for the vehicles listed in Exhibit A.

The OTT Torque Tune consists of an electronic control unit (ECU) calibration that is designed to increase vehicle performance, particularly mid-range torque. The OTT Torque Tune has calibrations available for vehicles equipped with modified differential gear ratios. A supplied handheld tuner and OBD II connector are used with a personal computer to reprogram the ECU. There are no end-user modifications to the ECU calibration, no other adjustable parameters, and no other major engine modifications.

Exemption of the OTT Torque Tune shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is valid provided that the installation instructions for the OTT Torque Tune will not recommend tuning the vehicle to specifications different from those originally provided by Overland Tailor Tuning.

Changes made to the design or operating conditions of the OTT Torque Tune, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system, shall invalidate this Executive Order.

This Executive Order shall not apply to any OTT Torque Tune advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the OTT Torque Tune using any identification other than that shown in this Executive Order or marketing of the OTT Torque Tune for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the OTT Torque Tune may have on any warranty, either expressed or implied by the vehicle

manufacturer; or compliance with any other state, federal, or local law, such as safety equipment requirements or noise limitations.

This Executive Order is granted based on information supplied by Overland Tailor Tuning, including emissions test data from a vehicle modified with the OTT Torque Tune, and an engineering evaluation of all vehicles included in this Executive Order.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to ensure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides the California Air Resources Board with reason to suspect that the OTT Torque Tune will affect the durability of emission control systems, Overland Tailor Tuning shall be required to submit durability data to show that the durability of vehicle emission control systems is not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE OTT TORQUE TUNE.

No claim of any kind, such as "Approved by the California Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this Executive Order. The Executive Order may be revoked only after a ten-day written notice of intention to revoke the Executive Order, in which period the holder of the Executive Order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the Executive Order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 24th day of June 2024.

Robin U. Lang, Chief
Emissions Certification and Compliance Division
