CALIFORNIA AIR RESOURCES BOARD

CALIFORNIA AIR RESOURCES BOARD

EXECUTIVE ORDER K-007-15

Relating to Exemptions of Aftermarket Critical Emission Control Parts for Highway Motorcycles under Sections 27156 and 38391 of the Vehicle Code

Harley-Davidson Motor Company
Screamin' Eagle Stage IV Kit

WHEREAS, Pursuant to the authority vested in the California Air Resources Board (CARB) by Sections 27156 and 38391 of the Vehicle Code and Title 13, California Code of Regulations (hereafter "CCR") Section 2222(j); and

WHEREAS, Harley-Davidson Motor Company has applied to CARB for an exemption from the prohibitions of Vehicle Code sections 27156 and 38391 to market its Screamin' Eagle Stage IV Kit for 2017 to 2024 model-year (MY) Harley-Davidson Touring and Softail on-highway motorcycles; and

WHEREAS, Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That the installation of the Screamin' Eagle Stage IV Kit produced and marketed by Harley-Davidson Motor Company, 11800 West Capitol Drive, Wauwatosa, Wisconsin 53222 has been found not to reduce the effectiveness of the applicable vehicle pollution control systems or to cause the vehicle emissions to exceed applicable emission standards, and is therefore exempt from the prohibitions of Sections 27156 and 38391 of the Vehicle Code for the 2017 to 2024 MY Harley-Davidson Touring and Softail on-highway motorcycles as listed in Exhibit A.

The Screamin' Eagle Stage IV Kit is a direct fit performance kit that increases horsepower and provides increased throttle response across the entire RPM range. The kit replaces the stock heads, pistons, camshaft, and induction module and consists of the following main components: CNC-ported cylinder heads with fully machined combustion chambers and 1mm larger valves, SE8-517 high-lift camshaft, forged high compression pistons, high performance cam bearing and tappets, 4.31" steel sleeve cylinders, 64mm throttle body with cast intake manifold, high flow injectors (5.5 g/sec), and a Stage IV timer cover. A new model-specific ECM calibration is also required to account for the increased airflow and must be flashed at the time of installation.

This Executive Order is granted based on submitted test data from Harley-Davidson Motor Company. The durability and emissions test data were used to evaluate the Harley-Davidson Motor Company Screamin' Eagle Stage IV Kit. Test results showed that the Screamin' Eagle Stage IV Kit, when installed on the vehicle, did not cause the exhaust emissions to exceed the applicable emission standards during the Cold Start Federal Test Procedure and during the Evaporative Emissions SHED Test Procedure.

BE IT FURTHER RESOLVED: That Harley-Davidson Motor Company has submitted materials demonstrating compliance with the emissions defects warranty requirements of section (c)(2) of the "California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles."

BE IT FURTHER RESOLVED: That Harley-Davidson Motor Company must permanently identify its exempted aftermarket critical emission control part by direct stamping or embossment as required under section (c)(3) of the “California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles.”

BE IT FURTHER RESOLVED: That Harley-Davidson Motor Company must retain records as required by section (c)(2)(D) of the “California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles,” and to report warranty claim records for each part covered by this Executive Order, as required by section (c)(6) of said procedures.

BE IT FURTHER RESOLVED: That Harley-Davidson Motor Company must submit production reports for the exempted aftermarket critical emission control part as required by section (c)(5)(A) of the “California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles.”

BE IT FURTHER RESOLVED: That Harley-Davidson Motor Company may be subjected to inspection and audit testing pursuant to section (c)(5)(B) of the “California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles.”

This Executive Order is valid provided that the installation instructions for Screamin’ Eagle Stage IV Kit will not recommend tuning the vehicle to specifications different from those submitted by Harley-Davidson Motor Company.

Changes made to the design or operating conditions of the devices, as exempted by CARB, that adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Screamin' Eagle Stage IV Kit advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of these devices using any identification other than that shown in this Executive Order or marketing of this device for an application other than those specified in this Executive Order shall be prohibited unless prior approval is obtained from CARB.

This Executive Order does not constitute any opinion as to the effect the use of the Screamin’ Eagle Stage IV Kit may have on any warranty, either expressed or implied by the vehicle manufacturer; or compliance with any other state, federal, or local law, such as safety equipment requirements or noise limitations.

The aftermarket critical emission control part exempted under this Executive Order must conform to all applicable California emission regulations. This exemption does not constitute an exemption to sell, offer for sale, or advertise any components of the Screamin’ Eagle Stage IV Kit as individual devices.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a 30-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within 30 days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 17th day of February 2026.
