

EXEMPTION APPLICATION

Category I – Part Number(s) or Name Change(s)

A manufacturer can request the California Air Resources Board (CARB) to update a previously issued exemption Executive Order to either add part numbers or make a name change. A new exemption Executive Order will be issued without the need for additional testing upon CARB's determination that the manufacturer's requested part number additions or name change have met the basis for similarity with respect to the existing exemption Executive Order.

If the submitted application is outside the scope of this application form, the application will be redirected by the Executive Officer to an appropriate category. A written response will be sent to the manufacturer detailing why the submitted application does not qualify for this requested category and will specify whether additional information is needed to continue the evaluation process.
