

EXEMPTION APPLICATION

Category IX – Add-On or Modified Part(s) Not Covered by Categories II through VIII.

This category is for add-on or modified parts that do not fit the criteria set forth in Categories II through VIII (hybrid kits, engine displacement increase kits, multistage performance kits with various components, camshafts, cylinder heads, transmissions, fuel injectors, and EGR coolers are just a few examples).

If the submitted application is missing information that is critical to the evaluation of the device or modification, a written response will be sent to the manufacturer requesting additional information.

APPLICANT INFORMATION

Telephone Number:		Email Address:

APPLICATION REQUIREMENT OVERVIEW

The application must include all of the following:

1. A vehicle coverage list that meets the following criteria:
 - a. Single original equipment vehicle/engine manufacturer

- b. Same vehicle class unless combined under same engine test group
 - c. Same engine configuration (e.g., I4, V6, V8, method of aspiration)
 - d. Same fuel type (flex-fuel may be included with gasoline)
 - e. Same emissions control technology (grouping patterns follow those of On-Road New Vehicle or Engine Certification Executive Orders).
 - f. Same emission standards (e.g., LEV III ULEV 125 and LEV III ULEV 70 are unique emission standards).
2. A list of part numbers assigned by the manufacturer for each unique design or modification.
 3. For each kit or stand-alone part number, step-by-step installation instructions with associated parts list and diagrams/pictures/schematics for proper installation of each part number. Installation instructions that represent more than one part number must have all applicable part numbers clearly presented in the instructions, along with applicable vehicles covered.
 4. A detailed description, as described in the section titled “**DETAILED DEVICE DESCRIPTION**” below, to assist CARB staff in understanding its operation, including technical operating principles, dimensional drawings, schematics, and material specifications. Manufacturers shall also identify, by name and part number, any OEM parts, components, or systems that are impacted by installation, resulting in changes to performance, fuel economy, drivability, emission control components, OBD, and emissions.
 5. A facsimile of the exemption label (see Section VIII of the Procedures for labeling requirements). Manufacturers with a previously issued exemption Executive Order must include an actual physical label with the first application submission of each calendar year.
 6. Sample kit or part, only when needed to assist Executive Officer in understanding the device’s operation and effects on emissions (if requested by the Executive Officer and after receipt of the application).

OPTIONAL APPLICATION SUBMISSIONS

The application may include the following (if not submitted with the initial application, the Executive Officer may request these items during application review):

Independent laboratory report (in the format as detailed in Section V(e) of the Procedures) for emissions and OBD testing, if previously completed.

VEHICLE/ENGINE COVERAGE LIST*

(Attach applicable file)

Please provide a spreadsheet (Excel compatible) in the following format with all applicable vehicle(s) or engine(s) coverage information.

Part Number	Model Year	Model	Engine Size	Test Group	Evaporative Family	New Vehicle Cert. Executive Order #
-------------	------------	-------	-------------	------------	--------------------	-------------------------------------

The file name should identify the vehicle list as follows:

Mfr_Device_OEM_Class_Engine-Config._Fuel Type_Emissions Std

For example: Supercharger-Maker_Super-Charger_Ford_LDT_V6-TC_Gas_LEV3ULEV70

*If applicable, provide a list of excluded vehicles/models/configurations that would otherwise fall within the scope of requested vehicle or engine coverage.

CRITICAL EMISSIONS EQUIPMENT MODIFICATIONS

Is this application applicable to on-highway motorcycles where inclusion or modification of a critical emission control part is sought as part of the installation of this device?

Yes No

If the answer is "Yes", you may need to submit a different application under the "California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles", information on these procedures can be found here: [California Evaluation Procedures for Aftermarket Critical Emission Control Parts on Highway Motorcycles](#)

INSTALLATION INSTRUCTIONS

(Submit all applicable installation instructions)

Total number of uploaded or attached installation instruction files:

DETAILED DEVICE DESCRIPTION

Attach separate document(s) for device description.

Include all technical operating principles, dimensional drawings, electrical schematics, material specifications, and possible impacts to performance, fuel economy, drivability, OBD, and emissions.

For each unique design or modification:

- Include color pictures of all components with size dimensions
- Material specifications for all components
- If the stock system contains any sensor(s), provide comparison pictures of the stock and modified part(s) which contain the impacted sensor(s)

EVALUATION CRITERIA

Testing requirements will be based on the Executive Officer's review of the submitted application.

LABELING REQUIREMENTS *

* Explanation of labeling requirements can be found here ([Exemption Procedures](#)).

(Submit facsimile of an exemption label)

(Submit material and lettering specifications for label)

REQUEST FOR SAMPLE

CARB may require one or more devices for evaluation. Device(s) will be returned only if return is requested at the time of device submission. Do you agree to provide the device(s) free of cost? Yes No If "No", please explain why.

SIGNATURE

I affirm the information provided is true, accurate, and complete, and that to the best of my knowledge installation of the device on a covered vehicle or engine will not cause regulated emissions to increase beyond the certification standards to which the vehicle or engine was certified, including any noxious or toxic matter, and will not cause emission control components and OBD to function differently than as designed by the vehicle or engine manufacturer.

I understand that I or the device manufacturer shall not: 1. Use the Executive Order as an endorsement or approval by CARB, 2. Market the device(s) using any identification other than that shown on the Executive Order, 3. Apply the Executive Order to parts sold prior to

the date shown on the Executive Order, 4. Market the device(s) for an application other than those listed on the Executive Order, 5. Offer for sale, or advertise any component of an applicable kit as an individual device, 6. Advertise the product as capable of reducing emissions, or 7. Advertise, offer for sale, sell, or install the device on a motor vehicle, except on-road motorcycle, prior to or concurrent with transfer to an ultimate purchaser.

Signature (authorized device manufacturer contact):	Date of Signature:

INSTRUCTIONS FOR SUBMITTING THIS FORM

Please submit to: (AMPES@arb.ca.gov).

For questions regarding this form, please contact (AMPES@arb.ca.gov).

A staff engineer assigned to your application submission will contact you after a preliminary review has been completed.

PRIVACY STATEMENT

Under the California Public Records Act (Gov. Code, § 6250 et seq.), your submissions, including associated contact information (e.g., your address, phone, email, etc.) become public records and may be released to the public upon request. Personal information will be protected from disclosure as required by law, including under the Information Practices Act (Cal. Civ. Code, § 1798, et seq.). Information that is claimed to be confidential should be submitted as provided in CARB's regulations for submitting confidential data, California Code of Regulations, title 17, section 91011.

This application form provides an accessible example on how to comply with the "Procedures for Exemption of Add-on and Modified Part(s) For On-Road Vehicles/Engines", adopted: June 29, 2021, and does not alter, amend, or modify the applicable statutes or regulations in any way. It does not provide any options for alternative compliance. In the event of any conflicting interpretation, the statutes and regulations control.
