California Climate Investments  
***2024 Draft Funding Guidelines for Agencies  
that Administer California Climate Investments***  
*July 11, 2024 1:00 p.m. - 2:30 p.m. PST*

*The California Air Resources Board (CARB) invites you to participate in a virtual public workshop on the Draft 2024 Funding Guidelines for Agencies that Administer California Climate Investments (Funding Guidelines). The Funding Guidelines apply to all California Climate Investments programs and provide guidance to administering agencies on developing their own guidelines and solicitations, estimating greenhouse gas emissions reductions and other project goals, and tracking and reporting achievements, including benefits to priority populations. CARB released draft updates to the Funding Guidelines reflecting the statutory requirements set forth in Assembly Bill 680 (Burke, Chapter 746, Statutes of 2021) as well as lessons learned from the 2018 Funding Guidelines. This workshop provides the public with an opportunity provide feedback on the draft updates for consideration in the final Funding Guidelines.*
