

CALIFORNIA SUSTAINABLE FREIGHT ACTION PLAN

Air Resources Board Meeting
Informational Update
May 19, 2016

Overview

- **California's Freight Transport System**
- **Governor's Executive Order B-32-15**
- **Components of the Action Plan**
- **Process and Next Steps**

1/3 of California's Jobs and Economy

California Industry Employment Composition

Total Employment (2014): 16 Million

Source: EDD, Labor Market Information Division, 2014

Critical to California's Environmental Objectives

Cut air
toxics
health risk

Attain air
quality
standards

Mitigate
climate
change

Zero-emission technology/ renewable energy

Under Continuous Pressure to Evolve

- 25 percent increase in volume by 2025
- Competition and cost pressures
- Demands of e-commerce
- System capacity, safety, and security
- More protective toxics and air quality standards
- Increased vulnerability of freight facilities to climate change impacts

Progress Will Require Partnerships Across...

- Multiple sectors, disciplines, and organizations
- State government
- Industry
- Federal, regional, and local agencies
- Environmental and community partners
- International bodies

Governor's Executive Order B-32-15

Multi-decade, iterative process needed to transform California's freight system. State agencies, in consultation with stakeholders, to develop plan by July 2016 to:

- **Improve freight efficiency**
- **Transition to zero emission technologies**
- **Increase competitiveness**

Other Recent State Plans

Stakeholder Engagement

Public Workshops and Webinars

- July 2015
- October 2015
- January-February 2016

Individual and Stakeholder Group Meetings

- California Freight Advisory Committee
- Freight Efficiency Working Group
- California Cleaner Freight Coalition
- Tribal governments
- Other groups as requested

Freight Efficiency Working Group

Chaired by Dr. Sperling
and
Convened by Caltrans

- **Participants:** Freight industry, academics, advocates, and government
- **Developed a series of white papers:**
 - Funding for Freight Infrastructure and Clean Equipment
 - Strategies to Maximize Asset Utilization
 - Planning and Policy
 - Operational Modernization at Distribution Nodes
 - Information Technology

Framework of Draft Action Plan

Released on May 3, includes:

- **2050 Freight System Vision**
- **Guiding Principles**
- **2030 Statewide Targets**
- **Freight Funding Approach**
- **State Agency Actions**
- **Pilot Projects**
- **Discussion Concepts**

2050 Freight System Vision

Utilize a partnership of federal, State, regional, local, and industry stakeholders to move freight in California on a modern, safe, integrated, and resilient system that continues to support California's economy and livability.

Transporting freight reliably and efficiently by zero emission equipment everywhere feasible, and near-zero emission equipment powered by clean low-carbon renewable fuels everywhere else.

Guiding Principles

“In addition to statutory requirements, the Guiding Principles characterize priorities for future investments of freight funding in California.”

- **Regional and Local Support**
- **Economy**
- **Safety**
- **Community Impacts**
- **Maintenance**
- **Reliability**
- **Efficiency**
- **Environment**
- **Resiliency**
- **Land Use**

2030 Statewide Targets

- **System Efficiency:** Improve 25 percent by 2030
- **Technology:** Deploy over 100,000 zero emission vehicles/equipment and maximize near-zero by 2030
- **Economy:** Foster future economic growth within the freight and goods movement industry

Freight Funding Approach

- **Potential Freight Funding**
 - Fixing America's Surface Transportation (FAST) Act
 - Governor Brown's Fiscal Year 2016-2017 Budget Proposal
- **Approach to Ongoing Freight Investments**
 - Trade Corridor Improvement Fund/Goods Movement Emission Reduction Program – Phase II
 - Further explore matching grants, financing assistance, and bulk purchasing power

State Agency Actions

- 1. Work with legislature on a freight transport funding package**
- 2. Work with legislature on distribution of federal FAST Act funds**
- 3. Plan and invest in infrastructure to modernize freight corridors**
- 4. Accelerate use of advanced technologies and renewable fuels**

State Agency Actions (cont'd)

- 5. Establish a sustainable freight think tank**
- 6. Develop strategies, tools, and data that consider commercial viability and promote competitiveness**
- 7. Continue work with the freight efficiency development group**
- 8. Implement steps to meet existing and future workforce needs**
- 9. Identify process improvements to expedite delivery of projects**

Implementation Steps for Actions

- **Transportation and Fueling Infrastructure**
 - Highway, Rail, and Waterway Network Planning and Development
 - Charging and Hydrogen Fueling Network Planning and Incentives
 - Freight Handbook
- **Advanced Technologies**
 - Vehicle and Equipment Regulatory and Incentive Concepts
 - Renewable Fuels Concepts
- **Competitiveness**
 - Cost and Benefit Data, Tools, and Metrics Development
- **System Efficiency**
 - Freight Truck Platooning, Route Designation, and Signal Priority
 - Intelligent Transportation Systems Enhancements
 - Off-Hour Delivery/Pick Up Strategy
- **Workforce Development**
 - Upskilling Programs and Job Training Models

Pilot Projects

- **Dairy Biogas for Freight Vehicles**
San Joaquin Valley
- **Advanced Technology for Truck Corridors**
Southern California
- **Advanced Technology Corridors at Border Ports of Entry**
California-Mexico Border

Discussion Concepts

- Inland marine corridors
- Non-traditional transport methodologies
- Packaging optimization
- Supply chain consolidation in the agricultural industry
- System efficiency strategies
- Transportation projects
 - Interstate 710 Corridor
 - State Route 11 Otay Mesa East Port of Entry

Next Steps

May 3, 2016	Draft Action Plan released for public comment
May-June 2016	Stakeholder meetings on draft Action Plan
July 6, 2016	Public comment period ends
July 2016	Agency Secretaries transmit final Action Plan to Governor
