

Consideration of the Community Emissions Reduction Plan (CERP) for the South Los Angeles Community

August 25, 2022

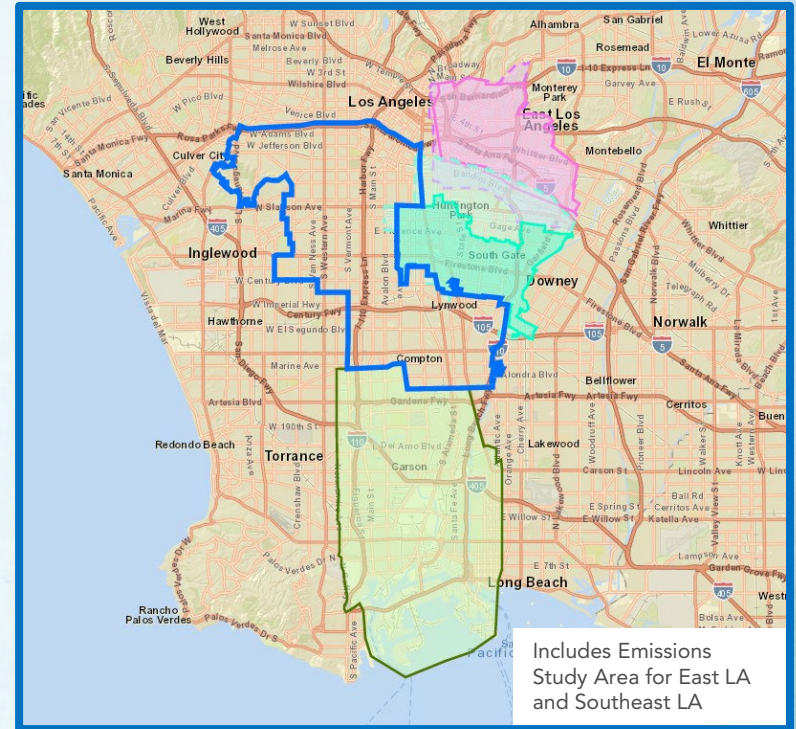

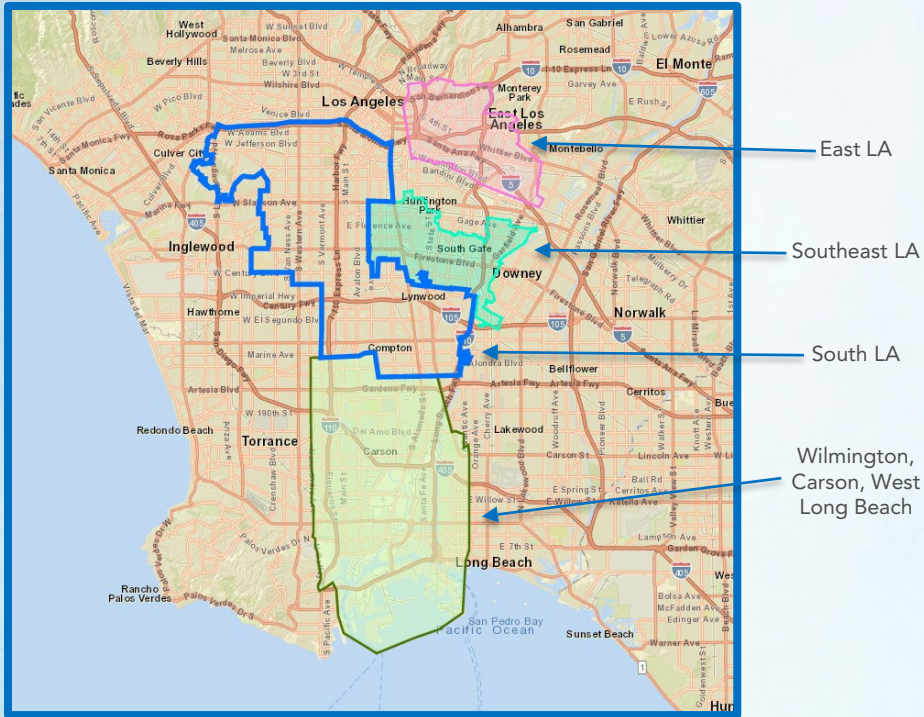

South Los Angeles Community

Includes in whole or in part:

Adams-Normandie	Leimert Park
Athens	Lynwood
Baldwin Hills	Manchester Square
Broadway-Manchester	South Park
Central-Alameda	Vermont Square
Chesterfield Square	Watts
Compton	West Adams
Crenshaw	Unincorporated areas of Westmont and
Exposition Park	Willowbrook
Florence	Inglewood
Gramercy Park	Los Angeles
Historic South-Central	
Jefferson Park	

Los Angeles Area AB 617 Communities

Highlights from Interviews with CSC Members

Need for community-driven process to develop the CERP

Challenge of compressed timeline

Need for quantifiable, permanent, enforceable emissions reductions

Need to require zero emission equipment and fleets for industrial operations

Key Strengths

Community Engagement

- Co-Leads
- Facilitation
- Online Tools

Diverse Strategies

- Rule Development
- Incentives
- Collaboration

Examples of Air District-Led Mobile Source Actions

Goal	Action(s)	Responsible Entity(ies)	Metric(s)	Timeline	
				Start	Complete
A: Warehouses and Idling	<ul style="list-style-type: none"> • Conduct idling inspection sweeps at locations of concern identified by the CSC • Explore opportunities to make Rule 2305 Warehouse Actions and Investments to Reduce Emissions (WAIRE) reports available on the F.I.N.D. tool • Report on Rule 2305 implementation and enforcement in the SLA community • Conduct outreach to warehouses regarding South Coast AQMD Rule 2305 requirements to reduce the impact of truck traffic 	South Coast AQMD	<ul style="list-style-type: none"> • Number of idling inspection sweeps at CSC-identified locations • Provide update to the CSC regarding availability of WAIRE reports on F.I.N.D. • Annual update to the CSC on Rule 2305 implementation and enforcement • Number of materials distributed to warehouses 	3 rd quarter, 2022	2 nd quarter, 2027

Examples of CARB Actions

- 1 Conduct an activity or solicit input through the CSC's contacts in the community to collect feedback on CARB's complaint filing system.
- 2 Conduct a community workshop on the Criteria Pollutant and Toxics Emissions Reporting (CTR) process and share the data that has been collected from facilities in the community.
- 3 Collaborate with South Coast AQMD to conduct inspections of all CSC-identified oil and gas facilities of concern.

Recommended Actions to Strengthen Implementation

Staff identified areas for CARB, the Air District, and steering committee to work together to:

Continue to Refine Strategies

Ensure Continued Collaboration

Consider Work Team Approach

Recommendations from lessons learned during development will help future communities during the planning process

Continue to Refine Strategies

Background

- Compressed timeline required to develop a CERP makes detailing strategies difficult.
- CSC members informed CARB they want to ensure CERP actions are followed through.

Recommended Actions

- SCAQMD and the community co-leads should work with CSC to ensure details are refined.
- Provide details in annual progress reports

Ensure Continued Collaboration

Background

- Many of the CERP strategies rely on agency collaboration and referrals.
- Specifics on collaboration need to be expanded on.

Recommended Actions

- Ensure collaborations continue during implementation and, if needed, beyond.
- Maximize the possibility of MOUs to solidify actions and clarify roles.
- CARB facilitates collaboration with other state agencies.

Consider Work Team Approach

Background

- Work teams (aka subcommittees) specific to implementation strategies have proven effective in other CSCs
- Participation in CSC has dwindled.

Recommended Action

- Work with co-leads and CSC to better understand reasons for attrition and consider use of work teams focused on CSC priorities for implementation.

Staff's Recommendation

- Approve the South Los Angeles Community Emissions Reduction Plan
- Direct CARB staff, the Air District and CSC to work together to strengthen implementation
- Direct the Air District to include progress updates on identified actions in annual reports
