#### **NOTICE OF PUBLIC HEARING TO CONSIDER THE ADOPTION OF PROPOSED REGULATIONS TO REDUCE EMISSIONS FROM DIESEL ENGINES ON COMMERCIAL HARBOR CRAFT OPERATED WITHIN CALIFORNIA WATERS AND 24 NAUTICAL MILES OF THE CALIFORNIA BASELINE**

The Air Resources Board (the Board or ARB) will conduct a continuation of a public hearing at the time and place noted below to consider adoption of regulations to reduce emissions of diesel particulate matter (PM) and oxides of nitrogen (NOx) from the use of diesel engines on commercial harbor craft operating in any California port, roadstead or terminal facility or within all California inland waters; all California estuarine waters; and within 24 nautical miles, except as otherwise specified in this proposal, of the California baseline (collectively referred to hereinafter as "Regulated California Waters"). Any person who sells, supplies, offers for sale, purchases, owns, operates, leases, charters, or rents any commercial harbor craft that operates in any of the Regulated California Waters would be subject to and have responsibilities under these regulations.

After considering this analysis, the Board plans to take appropriate action. The public comment period was closed at the end of the October hearing. The Board's continued hearing will be conducted at the date, time, and place listed below.
