This item will be heard at the meeting of the Board, which will commence at 9:00 a.m., August 25, 2022. Please note that this item will start no earlier than 4:00 p.m. on August 25, 2022. Please consult the agenda for the order of items.

### Background

Assembly Bill (AB) 617 (C. Garcia, Chapter 136, 2017), signed into law in July 2017, requires new community-focused actions to reduce air pollution and improve public health in communities that experience disproportionate burdens from exposure to air pollutants. To implement this statute, CARB established the Community Air Protection Program (Program), whose foundation is collaboration with communities and stakeholders to advance environmental justice and equity.

At its September 27, 2018, hearing, the Board approved the “Community Air Protection Blueprint” (Blueprint), which contains detailed requirements for community

emissions reduction programs, community air monitoring plans, and other elements of the Program ([Resolution 18-33](#).) At the same meeting, the Board also selected the first ten communities to implement community emissions reduction programs, community air monitoring, or both. Since then, the Board has selected seven additional communities for these targeted local actions.

Once CARB selects a community to develop a community emissions reduction program, the local air district must work with the community to develop and adopt a community emissions reduction program. Subsequently, the air district must submit the community emissions reduction program to CARB for consideration.

CARB selected South Los Angeles for a community air monitoring plan and a community emissions reduction program on February 25, 2021. The South Coast Air Quality Management District (SCAQMD) with the co-leadership of Physicians for Social Responsibility-Los Angeles, Strategic Concepts in Organizing, and Policy Education, and Watts Clean Air & Energy, worked with community steering committee to develop the Community Emissions Reduction Plan for the South Los Angeles Community (Plan) to reduce exposure to air pollution in the community. The SCAQMD Governing Board adopted the Plan on June 3, 2022.

CARB staff reviewed the Plan to determine whether it complies with the minimum criteria the legislation and the Blueprint established for community emissions reduction programs; reflects community priorities; and sets a foundation to deliver emissions and exposure reductions in the South Los Angeles Community. CARB staff also met with a subset of community steering committee members in June 2022 in one-on-one phone calls to hear directly from the South Los Angeles community members and other local stakeholders on their perspectives on the Plan. CARB staff released the *South Los Angeles Community Emissions Reduction Plan Staff Report* on August 4, 2022, which contains a summary of the review and staff recommendations to the Board.

## Proposed Action

The Board will hear about the contents of the CERP and consider CARB staff's recommendations for Board action contained in the *South Los Angeles Community Emissions Reduction Plan Staff Report*. Copies of the report may be obtained from CARB's website at <https://ww2.arb.ca.gov/capp> beginning August 4, 2022. Please contact Bradley Bechtold, Regulations Coordinator, at [Bradley.Bechtold@arb.ca.gov](mailto:Bradley.Bechtold@arb.ca.gov) or (279) 208-7266 if you need physical copies of the report.

Interested members of the public may present comments orally or in writing at the meeting and may provide comments by postal mail or by electronic submittal before the meeting. To be considered by the Board, written comments not submitted during the meeting must be received **no later than August 15, 2022**, and addressed to the following:

Postal mail: Clerks' Office, California Air Resources Board  
1001 I Street, Sacramento, California 95814

[Electronic submittal](http://www.arb.ca.gov/lispub/comm/bclist.php): <http://www.arb.ca.gov/lispub/comm/bclist.php>

Please note that under the California Public Records Act (Government Code section 6250 et seq.), your written and oral comments, attachments, and associated contact information (e.g., your address, phone, email, etc.) become part of the public record and can be released to the public upon request.

CARB requests that written statements on this item be filed at least ten days prior to the meeting so that CARB staff and Board members have additional time to consider each comment. Further inquiries regarding this matter should be directed to Terry Allen, Air Pollution Specialist, at (951) 542-3057.
