Errata

Proposed Amendments to the Landfill Methane Rule

Public Hearing Date: November 20, 2025

On December 3, 2025, the California Air Resources Board (CARB) released final Resolution 25-14 adopting the Landfill Methane Regulation (LMR), which was heard and approved by the CARB Board on November 20, 2025. CARB has identified and corrected an error in this final resolution. Page 8 of the December 3, 2025, resolution stated, “Be it further resolved that the Board directs the Executive Officer to make reported information publicly available on a website, with updates as new information is submitted.” Consistent with Board member discussion during the November 20, 2025, public hearing, this resolution provision should have specified that reported information would be publicly available starting in 2027. Staff is therefore correcting this provision to read, “Be it further resolved that the Board directs the Executive Officer to make reported information publicly available on a website starting in 2027, with updates as new information is submitted.”

The non-substantial correction described above clarifies and does not materially alter the requirements, rights, responsibilities, conditions, or prescriptions contained in the Proposed Amendments. (See Cal. Code Regs., tit. 1, § 40.)

This errata and the attachment showing the corrected excerpted resolution are available on CARB’s website at the following address:
