**CALIFORNIA SMOG INDEX LABEL SPECIFICATIONS
FOR 2004 AND SUBSEQUENT MODEL
PASSENGER CARS AND LIGHT-DUTY TRUCKS**

Adopted: [INSERT DATE OF ADOPTION]

Note: This proposed new document is an abbreviated version of the “California Motor Vehicle Emission Control and Smog Index Label Specifications” (the old Label Specifications document), which staff is proposing be sunsetted after the 2003 model year. All of the tune-up label requirements in the old Label Specifications document applicable to light-, medium and heavy-duty vehicles and motorcycles will be incorporated into their respective test procedure documents effective with the 2004 model year, making a separate document covering the California tune-up label requirements no longer necessary.

Effective with the 2004 model year, all of the smog index requirements in the old Label Specifications document would be moved to the new document shown here. Paragraph 1 of this new document was previously contained in paragraph 11 of the old Label Specifications document; paragraphs 2, 3, and 4 were previously set forth in paragraphs 3.5, 3.5(c), and 3.5(d) respectively of the old Label Specifications document; and Appendix A in this new document is identical to Appendix A in the old Label Specifications document.
