This item will be considered at an one-day meeting of the Board, which will commence at 9 a.m., June 26, 2008. Please consult the agenda for the meeting, which will be available at least 10 days before June 26, 2008, to determine the time on which this item will be considered.

For individuals with sensory disabilities, this document is available in Braille, large print, audiocassette or computer disk. Please contact ARB's Disability Coordinator at (916) 323-4916 by voice or through the California Relay Services at 711, to place your request for disability services. If you are a person with limited English and would like to request interpreter services, please contact ARB's Bilingual Manager at (916) 323-7053.

The Board's ICAT program co-funds demonstrations of new technologies that can improve air quality in California and support ARB programs while helping to stimulate the state's economy. ARB staff will recommend that the Board approve co-funding a project to support current and future emission control regulation development efforts. This project was selected because it addresses an important ARB program need, is technically sound, can reduce emissions, and can succeed commercially. The Board will consider a proposed resolution to approve co-funding for this project at its meeting.

ARB staff will present an oral presentation at the meeting. The project to be considered is the following: "Demonstration of Particulate Matter Sensor in Post-DPF Environment," submitted by Honeywell Laboratories, for a total amount not to exceed \$193,223.

Interested members of the public may also present comments orally or in writing at the meeting, and in writing or by e-mail before the meeting. To be considered by the Board, written comment submissions not physically submitted at the meeting must be received **no later than 12:00 noon, June 25, 2008**, and addressed to the following:

Postal mail: Clerk of the Board, Air Resources Board
